CAMERON, MILAM COUNTY, TEXAS, THURSDAY, SEPTEMBER 25, 1919.

NUMBER 21

## BIG MEETING FOR COMMERCIAL CLUB

Program for Semi-Annual Meeting  
Is Arranged; Banquet to Be  
Feature.

At the regular directors meeting of the Cameron Commercial Club Friday night, September 18, 1919, a roll call showed the following present:

Officers: Robt. McLane, president; Geo. T. Graves, treasurer; T. N. Herring, secretary.

Directors: W. W. Chambers, J. W. Coleman, J. T. Parma, R. H. McIntosh, Giles Avriett, John E. Mangum, H. M. Hefley.

Committee Chairmen: T. F. Hardy, Monta Thomas, T. B. Wooten, W. M. Cobb and Frank Lesovsky.

Minutes of previous meetings were read and upon motion adopted.

The secretary rendered a report for the membership and entertainment committee, the chairman of this committee, Mr. R. A. Triggs, being absent and out of town. The report was as follows:

The President and Board of Directors, Cameron Commercial Club:

We, your committee on membership and entertainment, detailed to arrange program for Semi-Annual Meeting to be held Friday night, September 26th, beg leave to report as follows:

That the secretary mail to each and every member, both regular and honorary, an invitation to the meeting; that the following be the outline of the program.

1. Regular routine of business.
2. Report from Committee Chairmen for past six months in writing.
3. Election of officers and board of directors as specified in by-laws and constitution.
4. A review of the commercial work for past six months—Hon. W. W. Chambers.
5. The future of the Cameron Commercial Club—Hon. W. G. Gillis.
6. Benefits to be derived from honorary membership—Thos. V. Adams, Buckholts.

The Auditorium Hotel has agreed to serve picnic style, 300 assorted sandwiches with coffee, and pure cream, ice tea, using plenty of relishes as side dishes for the sum of \$60.

At the banquet Hon. U. S. Hearrell is appointed toastmaster to arrange his own program.

We recommend that cigars be furnished by the Club after banquet is served.

Further and last, we recommend that this report be adopted.

Signed: R. A. TRIGGS,  
Chairman.

Upon motion the report was adopted.

The committee appointed to look after the matter of inducing new citizens to move to Cameron was read by the secretary as follows: Frank S. Lesovsky, chairman; W. G. Gillis, Geo. T. Graves, O. M. Smith, R. H. McIntosh.

The names of Carroll Gregory, Marion Morten and J. B. Simpson were proposed for membership and upon motion were duly elected.

In discussing the matter of new citizens R. H. McIntosh proposed that the Club get up some data about the new Yoe high school. Along the line of urging new citizens W. W. Chambers related that before much action was taken there should be some provision made to care for them in the way of houses. Since it is a fact that there is not an available residence in Cameron. He further outlined a plan that was being executed in Dallas, that of urging the more wealthy men to build homes, especially were the owners of the large business establishments building homes for their employees. The matter was referred to the Home and Factory Industry Committee, Frank Lesovsky, chairman.

A letter from State Health Officer C. W. Goddard was read by the secretary urging that the Club get in behind a movement to help prevent another seige of influenza this fall. The matter was discussed at length. W. W. Chambers made a motion that the Club go on record as being willing to render any assistance necessary in the fight, this motion was amended by another that a committee of seven be appointed to back up City Health Officer J. G. Townsend.

J. W. Coleman brought up the

## OVERLAND FOUR A REAL SENSATION

Light Little Car Takes to All Sorts  
of Roads. Wilkerson Bros.  
Local Distributors.

The new Overland Model 4 caused a sensation among automobile fans in Cameron last Tuesday—that is, among those who rode in it because Walter Roach, district manager and Perry Wilkerson of Wilkerson Bros., put the new little car through almost unbelievable "stunts" over rough roads in his endeavor to prove that John N. Willys had put on the market the light car that would cover the roughest of roads and yet give easy riding comfort. And Mr. Roach proved it.

This new Overland Model 4 is equipped with a three-point Cantilever spring, which is an exclusive patent of the Willys-Overland company. This spring, beyond a doubt, takes all the road shock off the body, radiator and passengers of this car. The car fully equipped, ready for the road, only weighs 1,825 pounds, yet it has the easiest riding comfort of the most luxurious car built. This car, on a test, has gotten as high as twenty-seven miles on a gallon of gasoline, 1,200 miles to the gallon of lubricating oil, and more than 10,000 miles on tires. "The car," states Mr. Roach "will fill a long felt want for the reason that the American public has wanted a light weight car because of the low upkeep, and yet possessing lasting qualities that are a feature of the heavier cars."

"The Overland Model 4 has come to stay. It is a proven success, not an experiment. Before the first of January the Overland-Willys factory will be turning these cars out at the rate of 1,000 daily. Every one who had the pleasure of a demonstration Thursday was enthusiastic over it."

## CORPUS RELIEF FUND IS \$650.00

Donations at First Were Light But  
More News of Disaster In-  
creases Amounts.

Cameron, like "every other city, little realized at first the need of help in the storm stricken country of Corpus, and the donations were much lighter than they would have been otherwise. Since the real facts have been learned, however, the original amount forwarded has almost been doubled. The Herald appeals to the generous people of Cameron who have not yet made a contribution to these worthy people to do so at once.

question of a very offensive lot at the rear of the express office which is a menace to the business houses in that section. The matter was referred to the Civic Improvement committee, Monta Thomas, chairman.

A letter from Dr. Goddard was read advising that Cameron had been included in the twelve towns where the International Health Board, acting in co-operation with the State Health Board, would make a survey to ascertain the work necessary to exterminating mosquitoes and ridding the town of malaria.

County engineer A. S. Mitchell and County Auditor Avriett, upon request, said the government trucks for road work in Milam county were not at present available. The supply had been exhausted before proper claims were filed, however, in the future same would be allotted.

R. A. Tagg appeared before the directors meeting representing the Cameron Concert Band. He stated the band wanted a practice room, that either the old Eagle's Hall was available or the use of the American Legion Hall would be acceptable, provided arrangements could be made. A motion carried, made by Frank Lesovsky, authorizing the band to confer with the Legion authorities and then confer with the Commercial Club.

## WILL WAGE BIG FIGHT AGAINST INFLUENZA

Mayor John B. McLane and City Health Officer J. G. Townsend Call For Aid of Entire Citizenship. Mass Meeting Friday Afternoon at Court House, 4 o'clock.

In compliance with a note of warning to the public regarding an influenza epidemic in Texas from State Health Officer C. W. Goddard, Mayor John B. McLane, in conference with City Health Officer J. G. Townsend, has called a mass meeting for the purpose of organizing the forces of Cameron to wage a fight against this dreaded disease.

It is their purpose to enlist every organization in the city, as is outlined by Dr. Goddard—The Commercial Club, The Ladies Civic League, The Mothers Club, The Parent-Teachers Association, Physicians and Nurses.

This meeting is called for 4 P. M. in the district court room Friday September 26. Every person in Cameron who wants to help prevent a serious onrush of this malady should be on hand. Cameron was fortunate last year in that only a few of our loved ones were called but this winter with the proper organization there should not be any fatalities.

The Commercial Club discussed this matter at a directors meeting last Friday night and passed a resolution going on record to lend any assistance that might be desired, a motion also carried to appoint a committee to back up the City Health Officer and the Mayor. The committee follows: Giles L. Avriett, chairman; W. G. Gillis, W. W. Chambers, Frank S. Lesovsky, T. F. Hardy, A. N. Green and Monta Thomas.

Below is a complete outline of the work sent out by Dr. Goddard in his communication to Mayor McLane.

### Note of Warning

On the twenty-first day of last September, the first case of influenza in Texas was reported to the state Health Department. This first case was followed in rapid succession by others from different parts of the State.

No equinoxial storm ever recorded, reached such a fury or exacted a toll in loss of life comparable to this epidemic which made its appearance in our State last fall.

It is a well known fact among medical men, that one of the special characteristics of influenza is that it recurs in cycles, and with each return records a heavy mortality. In each cyclic outbreak in the past the disease has reappeared in the fall and winter for from one to three years following the initial outbreak. The great epidemic of 1889 was followed by outbreaks in the fall and winter for three years following, and with an increasing mortality rate each year. The same history is recorded of epidemics of influenza in Europe, and in fact as far back as we have been able to gather statistics, each initial outbreak of influenza has been followed by recurrences in the next two or three years following. Since it is well known that history expect a recurrence of this dreadful disease this fall and winter, with a high mortality, especially from pneumonia.

I can not predict with certainty that we will have another epidemic of influenza this fall and winter, but I can with certainty say that if we do not, the history of epidemics of influenza in the past will not hold good for the future.

In the light of past knowledge and experience, it would be nothing short of criminal to take no steps to protect the public against a possible recurrence of last season's devastation. Based on incomplete statistics from rural and urban reports, it is estimated that there were approximately 450,000 deaths from influenza in the United States and approximately 25,000 in Texas, from the epidemic. The epidemic last year which swept over the country with hurricane like rapi-

dity, found the country depleted of its doctors and nurses, many communities having neither. At this time most of them have been released from the army and have come back to us rich with experience and trained in public health work.

The excessively heavy rains this year have caused an unusually heavy growth of vegetation which is apparent not only in the small villages and towns, but in places in our cities; while pools of stagnant water, and liters of garbage are to be seen in far too many places.

I am now calling upon you to begin an active campaign in anticipation of a possible recurrence of influenza, and as a matter of civic pride and health protection in general.

In every village, town and city, Health Boards should be organized or rejuvenated, where they already exist, and "CLEAN-UP CAMPAIGNS" put on, and every possible means taken to be prepared for any emergency.

Local health officers should at once call a meeting of their health boards if they have one, or a meeting for the purpose of organizing one if they do not already have one, and then enlist the aid of the Commercial Clubs, Civic Clubs, Boards of Trade, Social Welfare Workers, Parent-Teachers Associations and all other organizations interested in civic advancement and the betterment of health conditions in their communities.

I am calling upon the newspapers of the State to join me in this note of warning and trust that every paper in the State will not only copy this article, but add such comment as they feel will be helpful in promoting this defensive work in the interest of humanity.

If these prevailing measures are not taken, then from past experiences with influenza, you may reasonably expect your community to suffer the penalty of YOUR NEGLIGENCE.

C. W. GODDARD,  
State Health Officer.

### THE Y. W. B. L. OF CAMERON MAKES WORTHY DONATION

The Young Woman's Business League of Cameron, an organization which was very active in war work, has come to the rescue of the Corpus Christi sufferers with the amount of \$47.00. This organization is composed of young business women of Cameron and was organized first a War Savings Society during the period of war, but by no means did they confine their efforts to buying War Savings. This organization had in Cameron last winter the attractions furnished by the Dixie Lyceum Company, the only high-class attraction brought to the city.

The Y. W. B. L., whose president is Miss Myrtle Caldwell, realized fully the need of funds for relief work in Corpus Christi, and immediately decided to donate the balance in their treasury, the amount being \$47.00, the money was wired to Governor Hobby and an official receipt for same has been received.

### MR. AND MRS. COTTLE HERE

Mr. and Mrs. S. A. Cottle of Bryan arrived in the city Wednesday night, and are at the Auditorium Hotel. Mr. Cottle, when asked if he was back to stay, replied that he expected he was but had nothing definite to give out. It will be good news to everybody in Cameron to know that Mr. and Mrs. Cottle are contemplating moving back in our midst.

Price Cross has gone to Austin to take up his work in the State University which was interrupted by the war.

## W. F. PADEN LOSES HOME IN STORM

Former Citizens of Cameron Have  
Narrow Escape With Lives at  
Corpus Christi.

Mr. and Mrs. W. F. Paden arrived in Cameron Monday afternoon from Corpus Christi.

Their home in Corpus Christi was on Water street fronting the bay and was of course completely demolished. Mrs. Paden was warned Sunday morning about 10 o'clock that all residents of that section must leave at once. Hastily packing a few articles in a suit case, she made her escape to the court house. At this time the wind had attained such a velocity that walking was almost impossible and water was ankle deep when she started. About 3 o'clock in the afternoon her home was battered down by the fury of the waves and whirled into the deep.

Mr. Paden was in Austin at the time of the disaster and of course hastened toward the stricken city with all possible speed. He reached Portland by rail and there found four miles of turbulent waters confronting him with no means of transportation. However, his courage and determination were not to be thwarted and with six other men equally as determined and anxious, hastily constructed a raft and set out. For six hours they battled with the wind, waves and wreckage, but finally landed and immediately began a search for his wife. He found her safely marooned in the third story of the court house. When all provision for her comfort had been made, he devoted the rest of his time in administering to those less fortunate.

Mr. and Mrs. Paden had been contemplating a change in location before the storm and we understand they will not return to Corpus Christi.

—o—

## NEW DRY GOODS FIRM FOR CAMERON

Lewis S. Pierce is Name of New Firm  
To Be Opened Here On  
October 1st.

Mr. L. S. Pierce of Navasota completed arrangements Monday where by he will open in Cameron a first-class dry goods store. Mr. Pierce had been negotiating for several days for a location and finally succeeded in buying a lease from F. J. Beckerman on the Horstmann building, Main street, same being good for a five-year business period. It is planned by the new dry goods man to have his place of business in operation by the first of October, and after completing arrangements here Monday left for Dallas where he will buy fixtures for his new store.

Mr. Pierce is a dry goods man with a lifetime experience and now operates a large store in Navasota, he will retain this business and control the two, dividing his time equally between the two towns. The Cameron store which will carry a \$40,000 stock will be under the management of Mr. A. F. Bram, a right hand man of Mr. Pierce, the ladies ready-to-wear and millinery department will be in charge of Miss Emma Brewer, a lady of several years' experience in this line of work.

In discussing the situation Mr. Pierce said he looked around for a location, had heard and read a great deal about the progress. Cameron was making so he decided to make an investigation and upon coming to our little city found a thriving bunch of wide-awake people and as he put it, "A real live Commercial Club which is the backbone of any town." He said that he also found there were no vacant buildings, either store or residence so he immediately declared that Cameron was his choice and set out to get a location with the above results.

The Lewis S. Pierce store, according to the owner, will carry a complete line of high-class merchandise, including piece goods of the best var-

## WHOLESALEERS ARE FIGHTING TRUSTS

From Bureau of Research and Pub-  
licity of Southern Grocers  
Association.

Proposed regulation of meat packers effective. Would put burden of proof on monopoly.

The packers are trying to raise a fog concerning the Kenyon Bill by making people think that it would establish a "license system." As a matter of fact, no such system is involved in the Bill. Would requiring a reckless driver to give bond for future good conduct create a "bonding system?" The idea is little short of absurd. Obviously the bond would be required only of a driver who was reckless and would not affect those who did not drive automobiles, nor those who did not drive them recklessly.

The fact concerning the meat packing industry is that it was found to be in the control of a monopoly. This fact has been found by the Food Administration and by the Federal Trade Commission. Also, previous Government investigation, long before the Federal Trade Commission was established, has proved the same fact.

The question is, how can we make the Anti-Trust Laws effective in stamping out monopoly in the meat packing industry, and remove the menace of a great food trust? We do not want to destroy the meat packers, but they must be regulated.

Past experience shows that it has been almost impossible to convict the trust, and when convicted the results have been small. Therefore, Senators Kenyon and Kendrick, in drawing their bills, which are now before the Senate Committee on Agriculture, have endeavored to put teeth in them—teeth which will be effective in checking monopoly.

They believe that the investigations of the Food Administration and of the Federal Trade Commission establish a prima facie case that monopoly control exists. Therefore, these bills shift the burden of proof to the meat packers. That means that when the Secretary of Agriculture shall find that the meat packers are disobeying the law, he may take prompt action against them, which action will be effective unless the packers can prove in the courts that the findings of the Secretary of agriculture are wrong. To accomplish this, the bills provide that the packers must go through the form of taking out a license, in which they agree to live up to the Anti-Trust Laws. If they are found to be in violation of these laws, the bills provide that the Secretary of agriculture may either suspend or revoke the license. The meat packer may then appeal to the courts and have a full hearing before action is taken. Thus he is provided with his "day in court."

This is not a "license system" like that enforced by the Food Administration and which has come to be a bugbear to so many business men. It is not a precedent for other businesses. It is merely a wise provision designed to make it possible to reach monopoly and effectively a proven monopoly.

### MR. AND MRS. FRANKLIN HOME

Mr. and Mrs. Clyde Franklin, who were married in Rockdale last week arrived home Wednesday afternoon from their bridal tour. They enjoyed a trip to San Antonio, Austin and Waco. Clyde reports they stayed over in San Antonio Monday to see the circus but rain prevented a show, on Tuesday this big event was to be pulled off in Austin, but it was so muddy they could not unload so decided to give it up, and left for Waco. Yesterday morning about 10:00 o'clock they were on the streets of Waco and what should they see coming but the parade, so there was the chance—after chasing the big elephants and monkeys across Texas—they saw the show.

lady, ladies ready-to-wear, millinery and gents furnishings of the higher grades.

On another page of the Herald this week you will find the opening announcement of this new firm, and this addition to our already high-class dry good firms show progress.

### MILAM COUNTY HARDWARE CO.

Cameron, Texas

Successors to

TYSON-FREEMAN-HOLTZCLAW CO.

carried an artistic bouquet of bride roses in shower effect.

The very impressive ceremony was conducted by the Rev. J. Coy Williams, pastor in charge, while "Hearts and Flowers" was softly played by Mrs. Coffield and Mr. Hale.

This young couple begin life under most propitious surroundings. Mrs. Franklin is the only daughter of the late Dr. J. A. Phillips, and was reared in Rockdale, receiving her education in the public schools and at Baylor College, Belton, and made many friends by her unaffected winning ways.

Mr. Franklin is connected with the Chambers-Hefley Motor Company of Cameron, and is a likable young business man. He recently returned from overseas with the 133rd Artillery of the 36th Division. He is not an entire stranger in Rockdale, having been employed by the Henne & Meyer Co., previous to going to France.

Immediately following the ceremony a luncheon was tendered the bridal party by an uncle and aunt of bride, Mr. and Mrs. O. K. Phillips. In tossing, the bridal bouquet was caught by Miss Lottie Mae Phillips. They were the recipients of many beautiful and handsome gifts.

The couple left on the 5:40 Sunshine Special for San Antonio. They will be at home after October the first in Cameron.

The Reporter unites with a host of friends in wishing for them a long and happy life.

Out of town guests were the parents of the groom, Mr. and Mrs. J. H. Franklin, and sisters and brothers of Thorndale, Mr. and Mrs. Stewart of Milano, Mrs. John de Venter of Houston, Miss Irene Addiholt of Taylor and Mr. Hayden Lawrence of Cameron.

#### FRANKLIN-PHILLIPS WEDDING

(Rockdale Reporter)

A picturesque and elegantly beautiful wedding of more than local interest was solemnized Wednesday afternoon at four-thirty o'clock at the Methodist Episcopal church, when Miss Annie Mae Phillips became the bride of Mr. Clyde Franklin.

The pink and green tones, the colors chosen for the wedding, were employed in the church decorations. The archway and chandelier over the altar were festooned in ivy and queen's crown blossoms, and the entire altar and chancel rail formed an embankment of ferns and pink Kilarney roses. The pews reserved for the relatives were marked with streamers of green satin ribbon and clusters of pink roses.

Before the entrance of the bridal party, Mrs. A. P. Perry, Jr., a cousin of the bride, sang in her sweetest notes, "O Promise Me." She was accompanied by Mrs. W. A. Coffield at the organ and Mr. Robt. Lee Hale on violin. The musicians were stationed within the altar immediately behind the floral embankment.

As Mrs. Coffield and Mr. Hale played Mendelssohn's wedding march, the two ushers, Claude Franklin and

Geo. Childress, entered from opposite sides at rear of church and approached together down central aisle. They were followed by Miss Margie Prewitt, maid of honor, who entered singly from left entrance and approached down center aisle to altar. She was entrancing in a creation of pink Georgette and charmeuse with touches of blue with which she wore a large picture hat in harmonizing shades and carried a shower bouquet of pink Kilarney roses.

Next came the bride from the left entrance, and matron of honor, Mrs. Ben Lowenstein, a cousin of the bride, from right entrance. They met at center aisle and approached together to altar. The groom and best man, Mr. H. Skelton, entered simultaneously down left aisle and were joined by the bride and matron of honor at nuptial altar. Mrs. Lowenstein was gownned in a lovely Nile green taffeta and tulle with which she wore a large black velvet picture hat. She carried a shower bouquet of pink roses and ferns.

The bride who is of striking Titanian type, was beautiful in a taillleur suit of brown silvertone cloth, which emphasized the Russian lines. With this she wore a small hat, gloves and shoes in the harmonizing shades. She

## POLITICAL POT AT STATE CAPITAL IS BEGINNING TO BOIL

Austin, Sept. 20.—Politically there have been few developments during the past week. The list of gubernatorial candidates has not been swelled

by any formal announcements and only Pat Neff is making a campaign. Mr. Neff is confining himself to congratulations and is not getting into details of issues.

The Bailey followers appear not to have yet recovered from the shock of Bob Henry's announcement that he is going to run on their platform. Not a word has come from any of the multitude of leaders of the faction congratulating Mr. Henry upon his foresight and assuring him that he is welcome—not a single word.

Governor Hobby's attitude is sized up in his statement at the Hill county fair to the effect that "I want to get out of office but expect to stay in the fight."

Those who are considering the matter of running for governor has been somewhat enlarged recently. The list is now a lengthy and includes former Attorney General B. F. Looney, Speaker R. E. Thomason, Railroad Commissioner Earle B. Mayfield, Comptroller H. B. Terrell, George W. Riddle of Dallas, William Poindexter,

Marvin Brown, and there may be some more further additions to the list in the near future.

Governor Hobby is the only defender of the party to date; though there are stirrings on the part of some other of the aspirants leading one of to the belief that as fair season advances there will be expressions from quite a number in reply to the Ferguson-Bailey Republican attacks.

The governor is due to speak at the Shelby county fair and may accept other invitations if he can find time. It is his intentions to continue at least until there is response on the part of other democrats to the challenges thrown out by Ferguson and Bailey.

Chairman M. H. Wolfe does not appear to regard the time opportune for any consultation on the part of the members of the executive committee; at least he has issued no call for a consultation and probably has an idea that the whole matter is a sort of a small windstorm and not at all par taking of the dimensions of a tornado.

Nothing further has been heard of the threat to establish new morning papers at Houston, and Fort Worth; though this is deeply in the minds of Mr. Kirby and a few others of the wealthy men who are adherents of the Bailey faction.

Nor have there been any tidings of Senator Bailey's whirlwind campaign through the state which was promised to burst forth at about this date, immediately following the equinox.

Semi-official French figures show that more than 55,300,000 pounds of raw silk were produced in the world last year, a decrease of nearly 6,000,000 pounds from the year before.

An adding machine small enough to be easily moved from place to place has been invented which completes its work without it being necessary to pull down a handle at one side.

## CLUB BOYS TO ATTEND STATE FAIR AT DALLAS

Six hundred club boys of Texas will attend the encampment at the Dallas Fair Oct. 7 to 11, inclusive, H. H. Williams, assistant state farm demonstration agent of the extension service, A. & M. College, announced on his return from Dallas, where he made arrangements with fair association for the encampment. The boys will represent one hundred and fifty counties.

According to Mr. Williams the fair association will be host to the boys and they will be admitted free of charge to the fair grounds and its entertainments. A number of contests and exhibits are being planned, and from the contestants there will be a team of three boys and one substitute for the International Non-Collegiate Stock Association, which will meet in Chicago in December.

## SMILES.

There are smiles and smiles and smiles.

Some mean nothing, and others mean so much that you cannot read them at all. Some come and go, others are fixed as the paint and powder that usually goes with them.

Just now comes the thought of a smile we happened to see the other day. She was standing before a window filled with hats, looking at a soft brown velvet, rather large with a touch of gold on the brim. The years had brought her lots of compensation we know, but they had included no brown hats. She wanted that hat, yet she knew she would not buy it. It belonged to the woman of years ago, who had lots of brown hair, a skin with the blush of a rose, and eyes that were right, and she saw just how she would have looked in it, the look in her eyes was so absent and far away.

And then she smiled—the most tender, understanding smile—a smile for the girl she had dreamed about, and then a little laugh of good humor for herself.

666 has proven it will cure Malaria, Chills and Fever, Bilious Fever, Colds and LaGrippe. It kills the parasite that causes the fever. It is a splendid laxative and general Tonic.—Adv. 18

### A CAMERON MAN'S EXPERIENCE

Can you doubt the evidence of this Cameron citizen? You can verify Cameron endorsement. Read this:

S. E. Pitts, merchant, Nolan Ave., Cameron says: "About five years ago my kidneys were giving me a lot of trouble. My back seemed to ache all the time and the muscles were sore and lame. I was sore

across my kidneys and felt just played out. I picked up a paper and read about Doan's Kidney Pills and began taking them. After using about two boxes of Doan's, all those disagreeable conditions left me. I advise anyone to try Doan's Kidney Pills who has any kind of kidney complaint."

60c at all dealers. Foster-Millburn Co., Mfrs., Buffalo, N. Y.

### THE STATE OF TEXAS

To the Sheriff or any Constable of Milam county—Greeting:

You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Milam, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

### THE STATE OF TEXAS

To all persons interested in the estate of D. Kirkland, deceased, James B. Brewer has filed in the County Court of Milam County, an application to probate the Will and Last Testaments of D. Kirkland, deceased, which will be heard on the First Monday in October, A. D. 1919, same being the 6th day of October, A. D. 1919, the Court House thereof, in the City of Cameron, at which time all persons interested in said estate may appear and contest said application if they see proper.

HERE FAIL NOT, under penalty of the law, and of this writ make due return.

Given under my hand and seal of office, in the City of Cameron, the 15th day of September, A. D. 1919.

Attest: WILL T. YATES,  
Clerk County Court, Milam Co., Texas  
By DICK CLARK, Deputy

20-31-22

The best so-called Japanese rice paper for cigarettes is made from flax and hemp waste.

A new vacuum washer for small garments also can be used for dry cleaning with gasoline.

### WEEKLY FINANCIAL REVIEW.

Prepared for The Cameron Herald by the First National Bank in St. Louis.

An analysis made by the Shipping Board of commerce carried in vessels under control of the board has just been made public.

During the month of June the month selected for the inquiry, 293 freighters left American ports carrying 1,177,444 tons of cargo.

During the entire year of 1914, total value of domestic exports carried in American ships was \$166,055,061. In the same year foreign vessels carried \$1,861,735,581 or 91.8 per cent of our entire export trade for the year. The Shipping Board's analysis shows that in June 1919, American vessels carried domestic exports valued at \$268,228,502, or, in one month, \$102,173,421 more than was carried in American ships in the entire year 1914. Foreign ships carried American exports to the value of \$540,424,486 during June.

Our job department is complete. We know what hurry means.

# Ford

THE UNIVERSAL CAR

It's no longer necessary to go into the details describing the practical merits of the Ford car—everybody knows all about "The Universal Car." How it goes and comes day after day and year after year at an operating expense so small that it's wonderful. This advertisement is to urge prospective buyers to place orders without delay. Buy a Ford car when you can get one. We'll take good care of your order—get your Ford to you as soon as possible—and give the best in "after-service" when required.

Chambers-Hefley Motor Co.  
Phone 411 Cameron, Texas

### How We Go At It

First we look into the battery to see if you put water in it.

Then we use the hydrometer which is the one reliable way of knowing the condition of its charge.

Then, if no special cause of trouble appears we put it on the line to see if it will take a charge.

But if there is plain indication of serious trouble we open the battery up and find out exactly what's what.

Don't trust your battery to amateurs or artists in guesswork, who claim they can tell inside condition by outside inspection.

Come here where you find adequate machines and apparatus to really inspect, charge and repair any battery.

## CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## GENUINE CASTORIA ALWAYS

Bears the Signature of

*Chas. H. Fletcher*

In Use For Over 30 Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

## FITTING HOGS TO BRING TOP PRICES

The high prices at which good hogs are selling and the penalty which half-fattened and soft hogs grown in the South suffer on nearly all markets make the fattening of this year's fall crop of hogs an important matter. A loss of three or four cents a pound on a hog because he is not properly fitted for market frequently means the loss of the best part of the profit. Too few of our farmers, when considering the question as to whether it will pay to feed a 125-pound pig until it weighs 200 pounds, lose sight of the fact that the increase of two to three cents a pound applies to 200 pounds of hog. If 75 pounds more is put on, not only that 75 pounds will bring 2 or 3 cents more per pound, but the original 125 pounds is also increased in value to the same extent. If a 125-pound pig brings \$21.25, or 17 cents a pound, and a 200-pound hog brings 20 cents a pound, or \$40, then the feeder has not only received 20 cents for the added 75 pounds, but he has also received more for the original 125 pounds which the pig weighed, or he has received 25 cents a pound for the 75 pounds added.

The article of inferior quality or one not put in good marketable condition not only always suffers the just penalty which it should bear, but it also suffers an additional penalty in the market because it is not wanted. The markets want well-finished hogs; that is, there is a larger demand for the finished animals, consequently a larger demand as well as a greater value induces the buyers to pay a greater premium for it.

At the present prices of hogs and feeds, it will pay to give the 100-pound pig of fair quality enough feed

to make him weigh 175 to 225 pounds. This applies to practically all the feeds suitable for hog feeding, provided they are used with good hog-feeding sense.

## BRINGS WONDERFUL PRESCRIPTION TO ALL ECZEMA SUFFERERS.

Zemmerine, the latest scientific prescription for the treatment of eczema, itch, and similar skin diseases, is now sold in leading drug stores. Until recently it was the guarded formula of a great physician, and men have paid a higher price for the treatment, but now it is within the reach of every sufferer.

It's time to say good-bye to inflamed and burning skin. Farewell to irritating and unpleasant sores, splashes, and blots which mar your face and make you uncomfortable. Zemmerine can give you relief at it has others. Give it a trial under our guarantee, your money back if it fails to benefit you.

Simple directions accompany each bottle. Sold in two sizes, 50 cents and \$1. Start today and learn what relief means. If your druggist can't supply you, the Zemmerine Chemical Co., Orangeburg, S. C., will send you a bottle prepaid upon receipt of the price.

Literature written more than 1,000 years ago mentions two breeds of poultry still being raised in China while incubators now used are the same in principle as those employed in Egypt 4,000 years ago.

Rub-My-Tism is a powerful antiseptic; it kills the poison caused from infected cuts, cures old sores, tetter, etc.—Adv.

## A GREAT OPPORTUNITY FOR LADIES AND YOUNG MEN

The demand for telegraph operators was never as great as at the present time. The largest telegraph school in America—equipped with over a hundred sets of instruments, miniature train service, a train wire of a main line railroad, all telegraph and freight blanks and books of record; tickets, and in fact everything just as complete as found in one of the best equipped railroad offices, the best teachers to be obtained, thoroughly experienced in commercial and railway telegraphy, station and freight work—The Tyler Commercial College, of Tyler, Texas, is unable to supply the demands of the railroads, Western Union and Postal Telegraph Companies for operators. Read the following letter from the Superintendent of Telegraphy of one of the large railroad companies:

Tyler Commercial College, Gentlemen: If you will send us the high class students you have been sending we can use all that you can send. Could use a large number at the present time if you have them. In this connection will say that students you have sent us have been very satisfactory and have developed in some of the best telegraphers and agents that we have. Trust that you will be able to send us more of your students at once and keep them coming as fast as they are capable. I had the pleasure on August 2nd to visit your great school and made a personal investigation of the methods used by you in preparing student telegraphers, and I find they meet with all requirements of my road, and I wish further to say you have the largest and most complete and thorough business college that I have ever seen.

R. F. FRENZER, Supt.,  
Telegraph Union Pacific Railway.  
Our telegraph students are on all the leading Southwestern roads, and in Western Union and Postal Telegraph offices. With our help you can be a bigger success. Write for free catalogue. We place our graduates promptly free of charge. Tyler Commercial College, Tyler, Texas.

If you read it in The Herald—You know it is news.

## "BAYER CROSS" ON ASPIRIN

Always Ask for Genuine  
"Bayer Tablets of Aspirin"

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown quantities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder.

"Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper direction and dosage in each Bayer Package.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacids—ter of Salicylsacid.

## SOAKING THE FARMER.

"Production of farm products must be increased to reduce living costs." "The chief complaint of the nation on the high cost of food to the consumer." "It is the duty of every farmer to make his farm produce all it can."

The above sentences are taken from one article on the cost of living. The papers are full of such dope. Many editors of daily newspapers, catering to the towns and cities because there are more votes in the towns and cities and town and city people are sending up a mighty howl over the prices of farm products. These people are not aware of the facts that the farmer has nearly always been "skinned" on the price of his products, and that if he were paid for his labor at the same rate per hour paid town and city people, milk would sell for 40 cents per quart, eggs for \$1 per dozen, flour 10 cents per pound, and so on.

The officials in Washington have heard the city and the machinery of the government is making one great drive to force the price of food down. Last spring we were advised to use every ounce of energy and every cent of available capital to produce enormous crops to feed a hungry world, and we have produced the limits. We have produced at a higher cost than ever before, expecting a square deal from our government, but it seems that the prices of our products must come down while we continue to pay high prices for clothing, shoes, hats

and the numerous other things that we must buy.

The opening sentence of this article says, "Production of farm products must be increased to reduce the cost of living." Nothing is said in the article from which this sentence is taken or in any other article relative to increasing the production of factories for the purpose of reducing living costs. It is all right for factories to reduce the output in order to maintain profitable prices, but "It is the duty of every farmer to make his farm produce all it can." Such ridiculous advice will not be heeded much longer by intelligent farmers.

We never miss the mail. Read the Herald.

A patent has been granted for a device featured by a sort of three-handed clock dial to indicate the day of the week, day of the month and hour when a man absent from his office will return.

paid to.

Thomas N. Herring, Manager

Cameron, Texas, Sept. 25, 1919.

Better get 'em out, this little nor-  
ther is just a sample of what is com-  
ing.

We don't believe that whoever ad-  
vanced the price of eggs consulted  
the little brown hen.

Another heavy downpour of rain  
that we don't need, but everybody is  
smiling just the same.

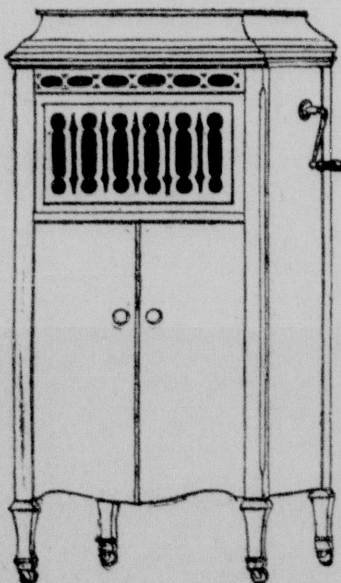

For fear that we don't say it first  
we will suggest that you do your  
Christmas shopping early.

Why is it necessary for a man to  
remain single because he took the  
bachelor's degree at college?

If the other big siege of rain we  
had did not drown the boll worms,  
don't you think this one did?

There are two sides to everything,  
even a hand mirror, but a woman  
finds little use for the back side.

"Self praise," they say, "is half  
scandal"—But the Herald insists  
that Cameron is the best town of its  
size in Texas. It has the most li-  
beral minded citizenship and we  
don't believe a single one of our mer-  
chants are guilty of "profiteering."

The present price of milk should  
make old Sook ashamed to look you  
in the face when she meets you in  
the road.

Three dollars used to buy a good  
pair of shoes, but now the shoemaker  
wants almost that much to tack on a  
pair of soles.

You can never expect to reach the  
right place traveling the wrong road  
—are you sure you are headed in the  
right direction?

Greet your neighbor with a hearty  
handshake when you meet him in the  
morning, he may have a little trouble  
in his mind that you could cause him  
to forget for a moment.

Somebody wants to know what has  
become of the old fashioned boy that  
used to keep a box of Mason blacking  
at home and "shined" his own shoes  
every Sunday morning.

This strong north wind of the past  
few days was ample to blow the  
moth ball scent out of your clothes  
you have preserved so carefully, but  
be sure to take them out of your  
pockets.

The Herald is crowded with ad-  
vertisements, because they bring re-  
sults and we invite our readers to go  
over every one of them carefully—  
another feature—they are all home  
merchants.

Continue to do your part, if it's  
only to sow a patch of turnips. The  
end of the war does not do away with  
the important matter of having  
something to eat at home.

It is reported that a maid in Chi-  
cago lost her job because the wife  
caught her kissing the husband. The  
report further is, however, that she  
had no trouble in securing another  
position.

In looking over the congregation  
of the various churches in this coun-  
try you will always notice that by far  
the largest part is composed of wo-  
men, then don't you wonder if it will  
be the same way in Heaven?

## PRINCESS CASH STORE BOUGHT BY J. A. FOX

(Waxahachie Light)

Messrs. O. D. Adams and Jno. W.  
Morton, owners of the Princess Cash  
Grocery, have sold their business to  
J. A. Fox of the Waxahachie Dry  
Goods Company, and Mr. Fox has  
placed G. S. Webber, late of Madill,  
Okla., in charge.

The new management took charge  
of the business Monday afternoon,  
and are going in to get a share of  
the grocery business in Waxahachie.  
Mr. Webber is a brother-in-law of Mr.  
Fox and he and his family are mak-  
ing their home temporarily at the Fox  
residence.

Mr. Fox announces that his pur-  
pose is to re-instate the delivery ser-  
vice maintained until recently by the  
Princess and feature this service in  
bidding for trade. He has a com-  
petent corps of assistants in the  
store and expects to continue the busi-  
ness without interruption, taking care  
of all patrons of the store and reach-  
ing out after new business.

Messrs. Adams and Morton do not  
intend to leave Waxahachie, but have  
not yet announced their plans for  
the future. They operated a first-  
class establishment here and have  
made many friends.

## OAKVILLE SCHOOL DISTRICT.

STATE OF TEXAS )  
County of Milam )

Notice is hereby given that an elec-  
tion will be held on the 10th day of  
October, A. D., 1919, at Oakville,  
(white) school house in Common  
School District number 32 of this  
County as established by order of the  
County Board of Trustees of date the  
7th day of April, 1919, which is re-  
corded in Book 1, Page 44 of the  
book designated "Record of School  
Districts," to determine whether a  
majority of the legally qualified prop-  
erty tax-paying voters of that dis-  
trict desire the issuance of bonds  
on the faith and credit of said Com-  
mon School District in the amount of  
\$3,000 the bonds to be of the denomi-  
nation of \$150 each, numbered con-  
secutively from one to twenty, both  
inclusive, payable serially in twenty  
years from date and bearing five per  
cent interest per annum, payable an-  
nually on April 10th of each year to  
provide funds to be expended in pay-  
ment of accounts legally contracted  
in constructing and equipping a pub-  
lic free school building of wood ma-  
terial and purchasing a site therefor  
within said district, and to determine  
whether the Commissioners Court of  
this County shall be authorized to  
levy, assess and collect annually while  
said bonds or any of them are out-  
standing, a tax upon all taxable prop-  
erty within said district sufficient to  
pay the current interest on said  
bonds and provide a sinking fund  
sufficient to pay the principal at ma-  
turity.

All persons who are legally quali-  
fied voters of this State and County  
and who are resident property tax  
payers in said district shall be en-  
titled to vote at said election.

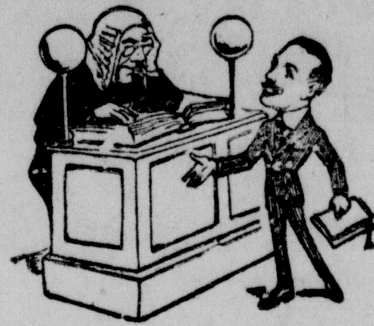

Said election was ordered by the  
County Judge of this County by or-  
der made on the 16th day of Sep-  
tember, 1919, and this notice is giv-  
ing in pursuance of said order.

Dated the 16th day of September,  
1919.

L. L. BLAYLOCK,  
Sheriff, Milam County, Texas.

## CITATION

THE STATE OF TEXAS )

Don't take our word for it, but come in and  
judge for yourself.

## PALACE OF SWEETS

"Your Satisfaction Is Our Success"  
STEDMAN & SHARPE, Props.

summon Andrew Williams by making  
publication of this citation once in  
each week for four successive weeks  
previous to the return day hereof,  
in some newspaper published in your  
county, if there be a newspaper pub-  
lished therein, but if not, then in any  
newspaper published in the 20th ju-  
dicial district; but if there be no new-  
spaper published in said judicial dis-  
trict, then in a newspaper published  
in the nearest district to said Milam  
County, to appear at the next regular  
term of the District Court of Milam  
County, to be held at the court  
house thereof in Cameron, on the 10th  
day of November, 1919, the same be-  
ing the 2nd Monday in November, 1919  
then and there to answer to a petition  
filed in said court on the 24th day of  
November, 1919, in a suit, numbered  
on the docket of said court No. 8017,  
wherein Mollie Williams is plaintiff  
and Andrew Williams is defendant.  
This suit is for divorce upon the  
ground of more than three years aban-  
donment of plaintiff by the defendant  
with intention of permanent abandon-  
ment commencing in October 1915,  
plaintiff praying for dissolution of the  
bonds of matrimony existing between  
her and defendant and for costs of suit

and general and special relief, etc.  
Herein fail not, but have before said  
court on the said first day of the next  
term thereof, with your return thereon  
showing how you have executed the  
same.

Witness: PENN WOLF,  
Clerk of the District Court,  
Milam County, Texas.

Given under my hand and the seal  
of said court, in Cameron, this the  
24th day of September, A. D. 1919.

## Better Poultry on the Farm

is a necessary part of the new order of things.  
The world needs more poultry and the farmer  
who keeps abreast of the times should not be  
lax in taking advantage of the enormous de-  
mand.

Poultry raising is pleasant and may be made of  
distinct profit to the farmer if he will follow  
strictly the three following essentials to prof-  
itable poultry production:

- All operations must be put on a sci-  
entific basis, regarding care of poultry,  
housing facilities, etc.
- A careful study of the market de-  
mands as to quality and the high  
standard of excellence to be main-  
tained.
- Observance of marketing problems,  
in order to make disposition to the  
very best advantage.

Good poultry is a safe investment. We urge  
you to increase your poultry supply and shall  
be glad to assist you if you will call upon us.

Our All the Year Round Garden Family.  
(By Ellen Eddy Shaw, Curator  
Brooklyn Botanic Garden.)

The best behaved fall garden child I know is Daffodil, and next to her, her little brother, Jonquil. Sometimes great big fat Hyacinth behaves, but small, brown-coated, smooth-looking, long-nosed Daffodil is quite the nicest. So buy a few daffodil and jonquil bulbs and get acquainted with these two good children.

Notice particularly how similar little Jonquil's coat and nose are to his sister's.

I would let our new friends stay on the table for several days before I planted them, so that we might get to know them by sight and by name, as we learn to know real flesh-and-blood children. But I would be very careful to place these little comrades so that the rounded part or base was down and the pointed face sticking up, and I would never squeeze their noses!

By and by the day will come when Jonquil and Daffodil must be planted. There are several ways of doing this. Suppose we use a glass jar first. It may be a little fern bowl, like the one in which partridge berries are sometimes planted. We fill the bowl almost full of fine white sand and if we have no sand we take some baskets or our little carts and go to a house that is being built and ask the builder if he will give us just a little sand for our garden. Into this bowl full of sand we plant our daffodil or our jonquil bulbs. They must nestle down so that only a little bit of their noses stick out. Two bulbs must never touch each other. They would not be comfortable that way. Two little girls would not like to sit so close to each other at the breakfast table that neither one could move. We must always make our plant children as comfortable as we are ourselves.

Next give the bulbs a big enough drink to soak the sand thoroughly, but not enough to have water standing on the surface. Now put the bowl away in the dark. The place does not have to be cool, but every little while the sand should be moistened.

In about ten days or two weeks, lo and behold, you will notice long white roots struggling all around and thru the sand close to the glass where you can see them, and the noses have put forth some white leaf-like shoots. It is now time to bring our little garden

to the light. Then in just a few days a miracle takes place. The roots have shot back into the sand; they do not like the light, and want always to remain cool and covered. The noses have turned green. And within about three weeks Daffodil and Jonquil blossom!

Sometimes instead of using the sand, place some small stones in a low, pretty bowl and arrange the bulbs on top of them. This bowl should be put away in the dark for about ten days or two weeks, and then brought out into the light. There should always be enough water to touch the base of the bulbs but never to come around them. This, you see, is just the way we start Chinese lily bulbs, but Daffodil behaves better than the Chinese lilies because her blossoms rarely blast.

If you like, Daffodil and Jonquil may also be planted in a pot or soil. Even so, leave their noses sticking out and you must put them in a dark cold place for five or six weeks. It is better, I think, to use the sand or the stones with Daffodil and Jonquil because then you don't have to wait so long for them.

After you have planted your first two or three daffodils and find out just how long it takes in your home for them to blossom, you could start some for father's birthday, timing them just right. Of course, it is understood that father will be kind enough to have a birthday this fall. If he will not, then mother or grandmother or baby surely will. I cannot imagine a family without at least one birthday in the fall or early winter.

## You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

**GROVE'S TASTELESS CHILL TONIC** restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

**GROVE'S TASTELESS CHILL TONIC** is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

To the parent: Just what does a child get out of this little garden? One lesson is a lesson of observation, and another is one of care; careful handling, careful planting and careful watering. The greatest lesson is the lesson of life. How out of something apparently lifeless there springs into being something living, beautiful and sweet. It is a great revelation to anyone, young or old, to handle life and to be able to produce something living, to care for it, and to make it comfortable and happy. And then, you can have such fun planting bulbs. Make a ceremony over it. Fuss about it a little. Use your imagination. Make a picture of the ugly little brown bulb and, later, another of the child which comes from it.

Of course there are other bulbs one may plant, but I am choosing two perfectly satisfactory, absolutely responsible ones. I believe that in work with very little children one should rarely choose what may be a failure. So, in our all-the-year-round garden we pick out successes. Do not forget the names of our fall children, Daffodil and her little brother, Jonquil.

Help to reach all the parents of the country by cutting this out and passing it on to a friend.

## GIRLS! WHITEN YOUR SKIN WITH LEMON JUICE

Make A Beauty Lotion for a few cents to remove tan, freckles, sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whitener and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

Sailor: "Oh, yes, I've been submarine service for two years."  
Lady: "How interesting! And won't you tell me how you get the salt water out of your hair?"

The French soldier found as much cause to complain about English as she is spoken as our lads did with the lingo over there. One of the tri-color veterans chirped up one day by letting out: "Ze English spoken, pas bon. Here ze sentence: 'What color is ze blackberry when it is green?' and I find out he is red!"

"Poor boy, you lost your arm!" a well-meaning old lady said to one of our returned heroes. "Well, ma'am, I don't mind that so much," replied the lad, "but it had a \$15 wrist watch on it!"—Ontario Post.

Two pretty girls met in the street and kissed each other rapturously. Two young men watched the proceedings.

"There's another of those things I hate," said one.  
"What's that?" asked his friend.  
He pointed to the scene. "Women doing men's work."

A nurse had just expressed her desire to remain in France when a wounded negro spoke up.

"Lady, yo' shor' doan mean them words? If Ah ever gets to Alabama one mo' time, an' thinks Ah'm gwine tuh even dream about dis heah country, why, Ah des gwine tuh set up all night long."

Scene—any seaside resort.—"Hear the moaning of the tide, John."  
"That's not the tide. It's the hotel guests paying their bills."—Life.

"Sam, did you see many dead men while you were in France?"  
"Yes, sir, we even slept wid 'em."  
"Well, Sam, weren't you scared?"  
"No, sir. I used to bum around wid 'em before I went to war."  
"How's that?"  
"I was a hearse driver sir."

Last night I held a little hand,  
So dainty and so neat;  
I thought my heart would surely burst,  
So wildly did it beat.  
No other hand into my soul  
Could greater gladness bring  
Than that I held last night, which was  
Four aces and a king.  
—Tanshun 21.

Lady: "Here, my poor fellow, is

a quarter for you. It must be dreadful to be lame, but I think it must be worse to be blind."

Tramp: It is mum. When I was blind they were always handing me counterfeit quarters."

## Something New.

"The Subbubs are no fools."  
"Why? What did they do?"  
"Gave a lawn-mowing party and had the guests cut the grass."

She did not get away, Miss Miff, With that amusing jape;  
Grace said, "You'd be a Venus, if It wasn't for your shape."  
Newark Advocate

A THOUGHT

Don't try to argue with Benjamin Franklin. He said: "Money Can Beget Money and It's Offspring Can Beget More." Just buy another W. S. S.

God set the example of work, careful, productive industry. He created the world, made man in His own image, and bade him be fruitful and multiply and replenish the earth and subdue it; and have a dominion over the fish of the sea, and over the fowl of the air, and over every living thing that moveth upon the earth. God set us the example of work. Laziness has no place in His plan for human development. Your first duty is to lead busy, productive lives. This is the first homely truth, just as it has been in all ages and under all conditions, and just as it will be. The Master Himself said: "My father worketh hitherto and I work."—Dr. Charles Meserve.

Mrs. Thomas White of Amarillo arrived in Cameron Saturday and in company with her daughter, Mrs. Emmett Barmore, went over to Liberty Sunday to visit another daughter, Mrs. Blanche Pierce.

Our Job Department is complete.

LETTER FROM DR. GODDARD ABOUT INFLUENZA

Last week I called your attention to the probability of a recurrence of influenza this fall and winter and stated that in the past the death rate grew larger with each recurrence. You were advised to get busy preparing yourselves and your town in anticipation of a recurrence. Since that time reports have reached this department of cases of influenza in three widely separated sections of the state.

While there are many things that have always acted as leading factors in promoting public health work, the dominating impulse should be the desire to prevent sickness, suffering and death, a love for one's fellow man and the desire to do everything possible to add to his comfort and welfare. Civic and personal pride follows closely as a factor promoting public health, for a desire to have the cleanest house and cleanest town should be the pride of every one.

I am now calling on you to set aside one day this week as "CLEAN-UP and ORGANIZATION DAY." Do not stop until you have organized your forces and given your town a thorough cleaning. After a thorough clean up, let us have for our motto: "No more trash littered back yards, streets or alleys; no more vacant lots overgrown with weeds and grass—no more pools of stagnant water."

I am asking that all health boards call a meeting this week and invite the school boards, the Commercial Club, the civic clubs, the parent-teachers association, the physicians and nurses, and all other organizations interested in problems of health, be invited to participate and at this meeting organize forces, perfect plans for a present clean up, and provide for follow-up workers and emergency demands that may arise.

In anticipation of an epidemic of influenza or one of any other nature, organize your forces, enroll your workers and have everything ready to meet an emergency at a moment's notice.

If your numbers will permit I suggest that the following officers and committees be appointed, and charged with looking after that particular phase of the work:

1. A president, or superintendent of public health, with a secretary.

2. A committee to raise funds to meet the demands, present and future.

3. A committee of follow-up workers, or inspectors to see that everything is kept in proper shape after having been put in proper condition.

4. A committee on law enforcement, to see that all sanitary laws are enforced and all offenders prosecuted.

5. A committee on public health education. This committee should be composed of physicians and nurses, who are willing to devote a short time at stated intervals, to giving instructions in public health rules, work and problems.

6. A relief committee, whose duty it shall be to see that all indigent cases are supplied with necessary medical attention, food and clothing during any epidemic.

7. A committee of volunteer workers. This committee should enroll names of all physicians and nurses, trained and practical, who are willing to respond to requests of the relief committee and give free medical attention to indigents who are not wards of the city or county.

Where your numbers will not permit of organizing so many different committees, you can combine duties and arrange so that all the above mentioned features will be taken care of by such a number of committees as you are able to organize.

That old cry of "the town is broke—we have no funds," can no longer be tolerated, especially since the work necessary entails no heavy expense, and promises so much in return.

Public opinion is the one influence that knows no restraint, that puts into practice that old adage: "Where there is a will, there is a way." It is now up to you to create that sentiment, and you can in the name of interest and humanity, you should do it.

It is your duty to do so, and your town will be healthier and more attractive by your having done so, and your consciences will be clear by having done your duty toward yourself and your fellow man.

C. W. GODDARD, M. D., State Health Officer.

HOW TO GET OUT OF MUDHOLE

The art of getting a car out of a mudhole is one worth practicing or at least thinking about—for no one wants to practice it. Some of us have had to, however.

In going thru a mudhole with a truck or car, the driver sometimes gets to the place where the wheels will slip and the machine will not move forward. When this happens, it is useless to continue the work of trying to go forward for it will only cause tire wear.

Many times the machine can be backed out of such a difficulty. The reason for this is that it has plowed its way ahead, and nine times out of ten the back way is more open.

If the car cannot be backed out in this way, then the job may often be done by cutting brush and placing under the wheels to serve the same purpose—or burlap bags. Some motorists take large pieces of canvas or burlap with them for pulling out of muddy and sandy places.

If you read it in The Herald—You know it is news.

## Cam-Hi Weekly News

September 25, 1919.

Vol. 2 Number 1.

## Editorial Staff:

Mildred Chambers, Editor-in-Chief, Gale Parma, Assistant Editor, Henry Tracy, Athletic Editor, Winnie Yoe, Senior Editor, Billie Clark, Junior Editor, Little Joe Mohler, Sophomore Editor, Harleigh McGregor, Freshman Edit.

At the beginning of every school year there is always a noticeable growth in high school enrollment. But this, of all years, show the greatest increase, and we are trying to make both students and new teachers feel more welcome than they have ever felt before. The study hall is crowded to its capacity, but every one is glad to see this increase and everyone is willing to give up just a little bit of space for the other fellow. There is fast developing among the students a congenial spirit, a willingness to share with others. This leads the student body to look about more and to realize that there is some one just across the aisle, perhaps, who has a life to live and who is trying to be prepared to live the best that is in him. It is all in the spirit, after all, and this is the spirit of old Cam-Hi.

Thus friendly interest is not confined to the students alone but reaches out to the faculty—and truly back again from their very hearts. There are some "ups and downs" to come, of course, but we are aspiring to climb up so high that all the downs will be small in comparison. The stern pedagogue who makes the poor student quake in his boots, so to speak, is no longer with us. One might think we are just a body of boys and girls studying together trying to do our best—our teachers as leaders, not drivers. We do not mean to say there is not a great respect among the students for the teachers; but this is really respect that comes of good friendship and is not fear.

With this existing relation of the faculty and study body, and general good fellowship all around, we are facing the new school year.

## A VIOLIN TEACHER.

Attempts are being made to secure a violin teacher. This teacher is to come down from Waco one or two days a week. This department of music is very essential, especially to the orchestra, and will be a great addition to the school.

All those who are interested, see J. N. Crawford as soon as possible in order that the teacher who is to come may be guaranteed as large a class as possible.

## CAM-HI WEEKLY BECOMING WIDELY KNOWN

The editorial board of the Cam-Hi weekly is in receipt of a letter from the Exchange Editor of the School Newspaper of Hurley, New Mexico. They are contemplating a school newspaper and wish to establish an exchange with us.

The editorial board is very glad to create such an exchange. Many schools are editing, or intend editing papers and we shall try to come in touch with as many of these schools as possible.

## FOOT BALL

When our work started for this year in the line of foot ball we soon understood that our new coach, Mr. Cameron, meant business. The team has been hard at work, and is rapidly being whipped into shape. Capt. Terry Wiley is on the job every afternoon with all the men available and we are sure that with all the new men we have in school this year we will have a team that will make victories easier than ever.

A large per cent of the old men have come out for the same positions they played last season. The total number who are interested in the game will make about three full teams and this will indicate that the

men who make the team will have to work.

The back field will be made up of some of the following: Wiley, Bigbee, Barmore, Denson, Willis, Matula, Epperson, Price, Kemp, Mayfield, and Burk.

Look out for our first game we are to have it soon.

## EDITORIAL STAFF.

As school has started the entire student body looked forward to the first edition of the Cam-Hi Weekly News. After a few days of anxious waiting a meeting was held in the study hall with Mr. Crawford as acting chairman. He stated the plans for the 1919-20 newspaper and then announced that the English department and the principal had decided to select the Editor-in-Chief, and had selected Mildred Chambers for this office. The election was put in the hands of the students and the following officers were elected: Gale Parma, assistant editor; Henry Tracy, athletic editor; Winnie Yoe, Senior editor; Billie Clark, junior editor; Joe Mohler, Sophomore editor, and Harleigh McGregor, Freshman editor.

The class editors were elected by the respective classes.

## SENIOR CLASS ORGANIZES

On Tuesday, September 18, the senior class of 1919-20 under the supervision of Miss Bass came together to organize. After a few remarks by different members of the class, nominations were put in order and the following officers were elected: Terry Wiley, president, Miss Katy Cone, vice-president, Leland Denson, secretary and treasurer.

The aim of this splendid class of forty-six is to make the best record of any class before this time or any class to come. In order to carry out this aim we are beginning early to call forth the class spirit and enthusiasm by having songs and yells. Miss Mildred Chambers has been appointed as chairman of the committee for securing songs and Thomas Hefley as chairman of a similar committee for securing yells. It was decided that a very good method for getting the class together and in spirit for class work is to have a social gathering, and Miss Juanita Caldwell as chairman of the social committee has been requested to arrange, with the assistance of her committee, a social event for the class as soon as possible.

The class is anxious to begin work immediately on the Annual.

## FRESHMAN SCIENCE CLASS

The freshman science class has organized a "Poultry Club" in order to learn the scientific method of raising

poultry. That is, learn to feed chickens the proper kind and amount so as to make them produce the greatest number of eggs possible.

Mr. Crawford, our instructor, has bought twelve fine blooded White Plymouth Rocks, which cannot be surpassed in this part of the country.

Last Wednesday afternoon the boys interested in this work labored faithfully until they completed permanent headquarters for the chickens. The girls served a lunch to the following who are charter members of the club. Ruth Redfield, Eula Norman, Thistle Smith, Elizabeth Gray, W. D. Blackstone, Harry Thatch, Togo Joynes, Rube Johnson, Marvin Sykes, Alvin Dusek, Baby Henrichson, John Henry Yoe, Franklin Dusek, Ernest Marshand and Ray Mayfield. Several new members were added to the club on Thursday.

After lunch was served the following officers were elected: Rube Johnson, president; Togo Joynes, vice-president and Elizabeth Gray, secretary-treasurer.

## WEEKLY EXPLOSIVES

Furthermore, we wish to state that the freshman class has become confused and has held an election for class officers. The stampede among the candidates reminds us of the circus crowd.

It is our idea that it is time for Seniors to gain their privileges.

Some one has said that natural history is very essential. Then why aren't we having a holiday for the circus?

The Cam-Hi widow is not here yet. She has been delayed on account of the rain. Her car, a new Success Speedster, has water in the educator, and is hitting on too many cylinders.

Mrs. Solomon says that profiteering applies to the school business too. The student body agrees with her. We want high grades, but we are honest and will give valuable work in return.

## Editor's Note.

(The readers probably notice that this, the first edition of volume two of the Cam-Hi Weekly, is much shorter than usual. This is due to the fact that the election of the editorial Board did not take place in time to

+++++

A patent has been granted for a device featured by a sort of three-handed clock dial to indicate the day of the week, day of the month and hour when a man absent from his office will return.

## WHY PUSH OUT THE CLUTCH?

A good many people ask this question, "What's the use of pushing out the clutch when you start your motor as long as the shift lever is in neutral and there is practically no load on the engine?" The question sounds like a logical one but as a matter of fact it is based on a wrong supposition. There is really a considerable load on the engine, just on account of the shaft and gears that must be turned.

Just try this test if you want to see how much this load amounts to.

Turn your engine over by hand some morning with the clutch in. Then have some one hold the clutch pedal down, or fasten it down with blocks and try it again. If you turn the engine over rapidly you will see that there is quite a difference and the load is much greater when the engine spins at the rate the starting motor turns it.

It pays to keep in mind the fact that thickened oil has a very definite braking action and this action is very greatly lessened when you push down on your clutch pedal.

Tan-No-More  
THE SKIN BEAUTIFIER

The most scientific and most wonderful facial preparation of the modern age. It imparts to the skin a velvety softness and delicacy which is delightful in appearance and pleasing in effect. Used during the day it is a protection from the Sun and Wind. In the evening its use assures a faultless complexion. Tints: White and Flesh. All dealers, 25c, 50c and \$1.00, or sent post paid on receipt of order. Sample for the asking.

SEPARATION OF STATE  
SCHOOLS IMPORTANT MATTER

Dallas, Texas, Sept. 22.—The importance of the adoption of the pending amendment to the constitution providing for the separation of the University and the Agricultural and Mechanical College which is to be voted on at the election in November is set forth clearly in an address to the citizens of Texas which has just been

issued by the executive committee of the organization which is in charge of the campaign on behalf of the proposed amendment. Leonard Tillotson of Sealy is chairman of this committee and Joe Uday of Dallas is secretary. Other members of the executive committee are, T. H. Shelby of Taylor, William Sleeper of Waco, C. G. Thomas of Lewisville, Nat M. Washer of San Antonio, J. A. Kemp of Wichita Falls, Judge Ned Norris of Palestine,

W. W. Turney of El Paso, E. W. Kirkpatrick of McKinney, T. S. Henderson of Cameron.

By the adoption of the amendment the constitutional status of the University and branches, the Agricultural and Mechanical College and branches, the College of Industrial Arts, the several state normal schools, and the Prairie View Normal and Industrial College for colored youths would be determined. It is pointed out in this address that the rapid increase in attendance at the University and the Agricultural and Mechanical College, together with the extraordinary development that has attended the College of Industrial Arts, and the notable improvement in character of instruction and training given by the several state normal schools all attest in the most impressive measure the widespread and earnest interest of all classes of people of the state in liberal provision for higher education and specialized instruction and vocational training.

By the adoption of the amendment there will be laid the foundation of

a thoroughly co-ordinated system of educational instructions, each performing the maximum of service to the people and all working in accordance with unified plan of educational achievement as well as for a common purpose, without unnecessary duplication, with increased power of efficiency.

The proposed amendment would remove the restrictions upon appropriations for the University or its branches. Many years the legislative interpretation of the constitution was given by which appropriations for buildings and equipment for the Agricultural and Mechanical College were permitted while denying similar appropriations for the University. The amendment provides for the division of the permanent University endowment fund between that institution and the Agricultural and Mechanical College on the basis of two-thirds to the University and one-third to the college. This basis of division is regarded as universally fair and satisfactory. Provision is made in the pending amendment for investment and utilization of the permanent endowment of the institutions for the purpose of securing funds with which to erect permanent buildings. By the carrying out of these provisions the immediate development of the University and its branches and the Agri-

cultural and Mechanical College and its branches would be made possible, it is asserted. It would enable these two institutions to care for the large number of young men and women at the University of Texas who now seek superior facilities for education in other states.

## OIL IS A MATTER OF ECONOMY

We use grease and oil to reduce friction. Heavy greases is usually used for heavy pressures and thin oil for high speed. It is also necessary to take temperature into consideration when buying lubricants.

All bearings should be kept free from all dirt and grit. It is highly essential that all bearings be kept clean and well greased or oiled. This means less power to operate the machine and longer life for it.

IMPATIENTLY AWAIT  
GREAT NEW CIRCUS

Ringling Brothers and Barnum & Bailey Combined Shows Arouse Keen Interest Here.

"Circus Day," the big holiday for which young and old impatiently wait at this particular season promises to eclipse all other events of the calendar year at Temple, October 2.

It would seem as though everybody in this locality were planning to attend. The very name of the great new circus—Ringling Brothers and Barnum & Bailey Combined—has been sufficient to arouse far more interest than has ever before been shown in the coming of any amusement enterprise. And word from the Ringling Brothers, who are the directors of this gigantic super-circus, is to the effect that those who attend the performances will witness the greatest program ever presented in America. This is likewise true of the mammoth street parade, which will positively take place showday morning, the mammoth menagerie and all else connected with this biggest of all amusement institutions. The famous showmen have made a complete survey of both the great circuses and merged the finest and best of each one. Hundreds upon hundreds of performers will appear in the gigantic main-tent. There will be scores upon scores of the cleverest dumb actors. A gorgeously costumed pageant, of stupendous size, will open the program. Great companies of characters, representing the best-loved stories of fable and nursery lore, will appear. There will be splendid and many groups of beautiful horses in jeweled trappings. The army of clowns exceed all past records for fun and numbers. All contribute to the biggest circus in history.

### TO THE PEOPLE OF MILAM COUNTY:

Corpus Christi and nearby coast towns have been swept by a terrific storm and tidal wave and hundreds have been drowned and thousands are homeless and destitute and the property loss is many millions.

Out of our safety and plenty can't we extend a helping hand? The various communities are urged to canvass their people for donations to this relief fund. This can be sent direct to Governor Hobby at Austin, Texas or can be sent to the undersigned at Cameron, where it will be promptly acknowledged and forwarded. Don't put this off. **Somebody**, and that means you, start it right now.

Chairman Milam County Chapter,  
American Red Cross.

### RENTS AND DIVORCES

(From the Ohio State Journal)  
In a burst of wisdom a Cleveland jurist has stated the cause of divorce to be high rents. Like many others who have received impressions, the jurist has given a contributing cause as the controlling factor in the trouble. There are many cases for divorce, as the jurist will learn for years to come. He is still a young man with only the opportunities for observation that come to a young man. High rents may give way to lower and high cost of living might disappear, but divorces would continue to appear in court. Marriage is the most serious undertaking in life, yet men and women assume its burdens with less thought and less preparation than are usually given to matters involving only a few dollars. Marriage is the real partnership of life, each must be ready to be a partner, to bear and forbear, to think and plan for self and others. The ideal marriage will not go to ruin because of high rents.

### DEATH OF YOUNG LADY

Miss Myrl Maddox, a niece of Mrs. J. E. Brunt, an dan employe of the local telephone exchange, died at the home of her aunt, in this city Tuesday morning at 11 o'clock.

She had suffered a slight indisposition Monday but her condition did not seem serious until Tuesday morning. Medical aid was summoned but nothing could be done to alleviate the trouble which was due principally to a weak heart.

Miss Maddox has lived in Cameron about a year and has made friends here who are grieved over her untimely passing. She is survived by a mother, two sisters and a brother, who live at Walker's creek. She was buried at Ben Arnold Wednesday. We extend our sincere sympathy to the bereaved family.

### SCHOOL GIRL MAKES MONEY WITH PIGS

A year ago Lola Thomason, a school girl of Victoria, La., joined the pig club and borrowed \$12.50 from a bank with which to purchase a gilt, reports J. G. Marston, assistant agent in Natchitoches Parish. Since that time the sow has had two litters of pigs—a total of 16. Thirteen of these were sold for \$135. The club member still has the sow and the remaining three pigs, one of which she recently refused \$45 for.

Lola's success has induced her sister Ida to become a pig-club member. She now has a sow with a litter of pigs and is well on the way to make nice profits from her club work.

### IMPORTS COTTON PICKERS

August Guresky returned Monday night from Flatonia where he had been to get cotton pickers for citizens in the Marak community. August brought back more than thirty, this being his second trip. Cotton in this community is practically all open and some of the land has nearly a bale to the acre, reports Mr. Guresky. He further reports that crops in the country where he has been are "blowed up," there is no cotton at all.

## BIG MEETING FOR COMMERCIAL CLUB

Program for Semi-Annual Meeting  
Is Arranged; Banquet to Be  
Feature.

At the regular directors meeting of the Cameron Commercial Club Friday night, September 18, 1919, a roll call showed the following present:

Officers: Robt. McLane, president; Geo. T. Graves, treasurer; T. N. Her-ring, secretary.

Directors: W. W. Chambers, J. W. Coleman, J. T. Parma, R. H. McIntosh, Giles Avriett, John E. Mangum, H. M. Hefley.

Committee Chairmen: T. F. Hardy, Monta Thomas, T. B. Wooten, W. M. Cobb and Frank Lesovsky.

Minutes of previous meetings were read and upon motion adopted.

The secretary rendered a report for the membership and entertainment committee, the chairman of this committee, Mr. R. A. Triggs, being absent and out of town. The report was as follows:

The President and Board of Directors, Cameron Commercial Club:

We, your committee on membership and entertainment, detailed to arrange program for Semi-Annual Meeting to be held Friday night, September 26th, beg leave to report as follows:

That the secretary mail to each and every member, both regular and honorary, an invitation to the meeting; that the following be the outline of the program.

1. Regular routine of business.
2. Report from Committee Chairmen for past six months in writing.
3. Election of officers and board of directors as specified in by-laws and constitution.
4. A review of the commercial work for past six months—Hon. W. W. Chambers.
5. The future of the Cameron Commercial Club—Hon. W. G. Gillis.
6. Benefits to be derived from honorary membership—Thos. V. Adams, Buckholts.

The Auditorium Hotel has agreed to serve picnic style, 300 assorted sandwiches with coffee, and pure cream, ice tea, using plenty of relishes as side dishes for the sum of \$60.

At the banquet Hon. U. S. Hearrell is appointed toastmaster to arrange his own program.

We recommend that cigars be furnished by the Club after banquet is served.

Further and last, we recommend that this report be adopted.

Signed: R. A. TRIGGS,  
Chairman.

Upon motion the report was adopted.

The committee appointed to look after the matter of inducing new citizens to move to Cameron was read by the secretary as follows: Frank S. Lesovsky, chairman; W. G. Gillis, Geo. T. Graves, O. M. Smith, R. H. McIntosh.

The names of Carroll Gregory, Marion Morten and J. B. Simpson were proposed for membership and upon motion were duly elected.

In discussing the matter of new citizens R. H. McIntosh proposed that the Club get up some data about the new Yoe high school. Along the line of urging new citizens W. W. Chambers related that before much action was taken there should be some provision made to care for them in the way of houses. Since it is a fact that there is not an available residence in Cameron. He further outlined a plan that was being executed in Dallas, that of urging the more wealthy men to build homes, especially were the owners of the large business establishments building homes for their employees. The matter was referred to the Home and Factory Industry Committee, Frank Lesovsky, chairman.

A letter from State Health Officer C. W. Goddard was read by the secretary urging that the Club get in behind a movement to help prevent another seige of influenza this fall. The matter was discussed at length. W. W. Chambers made a motion that the Club go on record as being willing to render any assistance necessary in the fight, this motion was amended by another that a committee of seven be appointed to back up City Health Officer J. G. Townsend.

J. W. Coleman brought up the

## OVERLAND FOUR A REAL SENSATION

Light Little Car Takes to All Sorts  
of Roads. Wilkerson Bros.  
Local Distributors.

The new Overland Model 4 caused a sensation among automobile fans in Cameron last Tuesday—that is, among those who rode in it because Walter Roach, district manager and Perry Wilkerson of Wilkerson Bros., put the new little car through almost unbelievable "stunts" over rough roads in his endeavor to prove that John N. Willys had put on the market the light car that would cover the roughest of roads and yet give easy riding comfort. And Mr. Roach proved it.

This new Overland Model 4 is equipped with a three-point Cantilever spring, which is an exclusive patent of the Willys-Overland company. This spring, beyond a doubt, takes all the road shock off the body, radiator and passengers of this car. The car fully equipped, ready for the road, only weighs 1,825 pounds, yet it has the easiest riding comfort of the most luxurious car built. This car, on a test, has gotten as high as twenty-seven miles on a gallon of gasoline, 1,200 miles to the gallon of lubricating oil, and more than 10,000 miles on tires. "The car," states Mr. Roach "will fill a long felt want for the reason that the American public has wanted a light weight car because of the low upkeep, and yet possessing lasting qualities that are a feature of the heavier cars.

"The Overland Model 4 has come to stay, it is a proven success, not an experiment. Before the first of January the Overland-Willys factory will be turning these cars out at the rate of 1,000 daily. Every one who had the pleasure of a demonstration Thursday was enthusiastic over it."

## CORPUS RELIEF FUND IS \$650.00

Donations at First Were Light But  
More News of Disaster In-  
creases Amounts.

Cameron, like "every other city, little realized at first the need of help in the storm stricken country of Corpus, and the donations were much lighter than they would have been otherwise. Since the real facts have been learned, however, the original amount forwarded has almost been doubled. The Herald appeals to the generous people of Cameron who have not yet made a contribution to these worthy people to do so at once.

question of a very offensive lot at the rear of the express office which is a menace to the business houses in that section. The matter was referred to the Civic Improvement committee, Monta Thomas, chairman.

A letter from Dr. Goddard was read advising that Cameron had been included in the twelve towns where the International Health Board, acting in co-operation with the State Health Board, would make a survey to ascertain the work necessary to exterminating mosquitoes and ridding the town of malaria.

County engineer A. S. Mitchell and County Auditor Avriett, upon request, said the government trucks for road work in Milam county were not at present available. The supply had been exhausted before proper claims were filed, however, in the future same would be allotted.

R. A. Tagg appeared before the directors meeting representing the Cameron Concert Band. He stated the band wanted a practice room, that either the old Eagle's Hall was available or the use of the American Legion Hall would be acceptable, provided arrangements could be made. A motion carried, made by Frank Lesovsky, authorizing the band to confer with the Legion authorities and then confer with the Commercial Club.

## WILL WAGE BIG FIGHT AGAINST INFLUENZA

Mayor John B. McLane and City Health Officer J. G. Townsend Call For Aid of  
Entire Citizenship. Mass Meeting Friday  
Afternoon at Court House, 4 o'clock.

In compliance with a note of warning to the public regarding an influenza epidemic in Texas from State Health Officer C. W. Goddard, Mayor John B. McLane, in conference with City Health Officer J. G. Townsend, has called a mass meeting for the purpose of organizing the forces of Cameron to wage a fight against this dreaded disease.

It is their purpose to enlist every organization in the city, as is outlined by Dr. Goddard—The Commercial Club, The Ladies Civic League, The Mothers Club, The Parent-Teachers Association, Physicians and Nurses.

This meeting is called for 4 P. M. in the district court room Friday September 26. Every person in Cameron who wants to help prevent a serious onrush of this malady should be on hand. Cameron was fortunate last year in that only a few of our loved ones were called but this winter with the proper organization there should not be any fatalities.

The Commercial Club discussed this matter at a directors meeting last Friday night and passed a resolution going on record to lend any assistance that might be desired, a motion also carried to appoint a committee to back up the City Health Officer and the Mayor. The committee follows: Giles L. Avriett, chairman; W. G. Gillis, W. W. Chambers, Frank S. Lesovsky, T. F. Hardy, A. N. Green and Monta Thomas.

Below is a complete outline of the work sent out by Dr. Goddard in his communication to Mayor McLane.

### Note of Warning

On the twenty-first day of last September, the first case of influenza in Texas was reported to the state Health Department. This first case was followed in rapid succession by others from different parts of the State.

No equinoxial storm ever recorded, reached such a fury or exacted a toll in loss of life comparable to this epidemic which made its appearance in our State last fall.

It is a well known fact among medical men, that one of the special characteristics of influenza is that it recurs in cycles, and with each return records a heavy mortality. In each cyclic outbreak in the past the disease has reappeared in the fall and winter for from one to three years following the initial outbreak. The great epidemic of 1889 was followed by outbreaks in the fall and winter for three years following, and with an increasing mortality rate each year. The same history is recorded of epidemics of influenza in Europe, and in fact as far back as we have been able to gather statistics, each initial outbreak of influenza has been followed by recurrences in the next two or three years following. Since it is well known that history expect a recurrence of this dreadful disease this fall and winter, with a high mortality, especially from pneumonia.

I can not predict with certainty that we will have another epidemic of influenza this fall and winter, but I can with certainty say that if we do not, the history of epidemics of influenza in the past will not hold good for the future.

In the light of past knowledge and experience, it would be nothing short of criminal to take no steps to protect the public against a possible recurrence of last season's devastation. Based on incomplete statistics from rural and urban reports, it is estimated that there were approximately 450,000 deaths from influenza in the United States and approximately 25,000 in Texas, from the epidemic. The epidemic last year which swept over the country with hurricane like rapidity, found the country depleted of its doctors and nurses, many communities having neither. At this time most of them have been released from the army and have come back to us rich with experience and trained in public health work.

The excessively heavy rains this year have caused an unusually heavy growth of vegetation which is apparent not only in the small villages and towns, but in places in our cities; while pools of stagnant water, and liters of garbage are to be seen in far too many places.

I am now calling upon you to begin an active campaign in anticipation of a possible recurrence of influenza, and as a matter of civic pride and health protection in general.

In every village, town and city, Health Boards should be organized or rejuvenated, where they already exist, and "CLEAN-UP CAMPAIGNS" put on, and every possible means taken to be prepared for any emergency.

Local health officers should at once call a meeting of their health boards if they have one, or a meeting for the purpose of organizing one if they do not already have one, and then enlist the aid of the Commercial Clubs, Civic Clubs, Boards of Trade, Social Welfare Workers, Parent-Teachers Associations and all other organizations interested in civic advancement and the betterment of health conditions in their communities.

I am calling upon the newspapers of the State to join me in this note of warning and trust that every paper in the State will not only copy this article, but add such comment as they feel will be helpful in promoting this defensive work in the interest of humanity.

If these prevailing measures are not taken, then from past experiences with influenza, you may reasonably expect your community to suffer the penalty of YOUR NEGLIGENCE.

C. W. GODDARD,  
State Health Officer.

THE Y. W. B. L. OF CAMERON  
MAKES WORTHY DONATION

The Young Woman's Business League of Cameron, an organization which was very active in war work, has come to the rescue of the Corpus Christi sufferers with the amount of \$47.00. This organization is composed of young business women of Cameron and was organized first a War Savings Society during the period of war, but by no means did they confine their efforts to buying War Savings. This organization had in Cameron last winter the attractions furnished by the Dixie Lyceum Company, the only high-class attraction brought to the city.

The Y. W. B. L., whose president is Miss Myrtle Caldwell, realized fully the need of funds for relief work in Corpus Christi, and immediately decided to donate the balance in their treasury, the amount being \$47.00, the money was wired to Governor Hobby and an official receipt for same has been received.

MR. AND MRS. COTTLE HERE

Mr. and Mrs. S. A. Cottle of Bryan arrived in the city Wednesday night, and are at the Auditorium Hotel. Mr. Cottle, when asked if he was back to stay, replied that he expected he was but had nothing definite to give out. It will be good news to everybody in Cameron to know that Mr. and Mrs. Cottle are contemplating moving back in our midst.

Price Cross has gone to Austin to take up his work in the State University which was interrupted by the war.

## W. F. PADEN LOSES HOME IN STORM

Former Citizens of Cameron Have  
Narrow Escape With Lives at  
Corpus Christi.

Mr. and Mrs. W. F. Paden arrived in Cameron Monday afternoon from Corpus Christi.

Their home in Corpus Christi was on Water street fronting the bay and was of course completely demolished. Mrs. Paden was warned Sunday morning about 10 o'clock that all residents of that section must leave at once. Hastily packing a few articles in a suit case, she made her escape to the court house. At this time the wind had attained such a velocity that walking was almost impossible and water was ankle deep when she started.

About 3 o'clock in the afternoon her home was battered down by the fury of the waves and whirled into the deep. Mr. Paden was in Austin at the time of the disaster and of course hastened toward the stricken city with all possible speed. He reached Portland by rail and there found four miles of turbulent waters confronting him with no means of transportation.

However, his courage and determination were not to be thwarted and with six other men equally as determined and anxious, hastily constructed a raft and set out. For six hours they battled with the wind, waves and wreckage, but finally landed and immediately began a search for his wife. He found her safely marooned in the third story of the court house. When all provision for her comfort had been made, he devoted the rest of his time in administering to those less fortunate.

Mr. and Mrs. Paden had been contemplating a change in location before the storm and we understand they will not return to Corpus Christi.

## NEW DRY GOODS FIRM FOR CAMERON

Lewis S. Pierce is Name of New Firm  
To Be Opened Here On  
October 1st.

Mr. L. S. Pierce of Navasota completed arrangements Monday where by he will open in Cameron a first-class dry goods store. Mr. Pierce had been negotiating for several days for a location and finally succeeded in buying a lease from F. J. Beckerman on the Horstmann building, Main street, same being good for a five-year business period. It is planned by the new dry goods man to have his place of business in operation by the first of October, and after completing arrangements here Monday left for Dallas where he will buy fixtures for his new store.

Mr. Pierce is a dry goods man with a lifetime experience and now operates a large store in Navasota, he will retain this business and control the two, dividing his time equally between the two towns. The Cameron store which will carry a \$40,000 stock will be under the management of Mr. A. F. Bram, a right hand man of Mr. Pierce, the ladies ready-to-wear and millinery department will be in charge of Miss Emma Brewer, a lady of several years' experience in this line of work.

In discussing the situation Mr. Pierce said he looked around for a location, had heard and read a great deal about the progress Cameron was making so he decided to make an investigation and upon coming to our little city found a thriving bunch of wide-awake people and as he put it, "A real live Commercial Club which is the backbone of any town." He said that he also found there were no vacant buildings, either store or residence so he immediately declared that Cameron was his choice and set out to get a location with the above results.

The Lewis S. Pierce store, according to the owner, will carry a complete line of high-class merchandise, including piece goods of the best variety.

## WHOLESALEERS ARE FIGHTING TRUSTS

From Bureau of Research and Pub-  
licity of Southern Grocers  
Association.

Proposed regulation of meat packers effective. Would put burden of proof on monopoly.

The packers are trying to raise a fog concerning the Kenyon Bill by making people think that it would establish a "license system." As a matter of fact, no such system is involved in the Bill. Would requiring a reckless driver to give bond for future good conduct create a "bonding system?" The idea is little short of absurd. Obviously the bond would be required only of a driver who was reckless and would not affect those who did not drive automobiles, nor those who did not drive them recklessly.

The fact concerning the meat packing industry is that it was found to be in the control of a monopoly. This fact has been found by the Food Administration and by the Federal Trade Commission. Also, previous Government investigation, long before the Federal Trade Commission was established, has proved the same fact.

The question is, how can we make the Anti-Trust Laws effective in stamping out monopoly in the meat packing industry, and remove the menace of a great food trust? We do not want to destroy the meat packers, but they must be regulated.

Past experience shows that it has been almost impossible to convict the trust, and when convicted the results have been small. Therefore, Senators Kenyon and Kendrick, in drawing their bills, which are now before the Senate Committee on Agriculture, have endeavored to put teeth in them—teeth which will be effective in checking monopoly.

They believe that the investigations of the Food Administration and of the Federal Trade Commission establish a prima facie case that monopoly control exists. Therefore, these bills shift the burden of proof to the meat packers. That means that when the Secretary of Agriculture shall find that the meat packers are disobeying the law, he may take prompt action against them, which action will be effective unless the packers can prove in the courts that the findings of the Secretary of agriculture are wrong. To accomplish this, the bills provide that the packers must go through the form of taking out a license, in which they agree to live up to the Anti-Trust Laws. If they are found to be in violation of these laws, the bills provide that the Secretary of agriculture may either suspend or revoke the license. The meat packer may then appeal to the courts and have a full hearing before action is taken. Thus he is provided with his "day in court."

This is not a "license system" like that enforced by the Food Administration and which has come to be a bug-bear to so many business men. It is not a precedent for other businesses. It is merely a wise provision designed to make it possible to reach properly and effectively a proven monopoly.

## MR. AND MRS. FRANKLIN HOME

Mr. and Mrs. Clyde Franklin, who were married in Rockdale last week arrived home Wednesday afternoon from their bridal tour. They enjoyed a trip to San Antonio, Austin and Waco. Clyde reports they stayed over in San Antonio Monday to see the circus but rain prevented a show, on Tuesday this big event was to be pulled off in Austin, but it was so muddy they could not unload so decided to give it up, and left for Waco. Yesterday morning about 10:00 o'clock they were on the streets of Waco and what should they see coming but the parade, so there was the chance—after chasing the big elephants and monkeys across Texas—they saw the show.

lady, ladies ready-to-wear, millinery and gents furnishings of the higher grades.

On another page of the Herald this week you will find the opening announcement of this new firm, and this addition to our already high-class dry good firms show progress.

## We Appreciate Your Confidence

Confidence is most readily gained by selling customers the thing they want. We enjoy the confidence of our customers by selling them dependable Hardware at prices in line with our Merchandise.

### MILAM COUNTY HARDWARE CO.

Cameron, Texas

Successors to

TYSON-FREEMAN-HOLTZCLAW CO.

carried an artistic bouquet of bride roses in shower effect.

The very impressive ceremony was conducted by the Rev. J. Coy Williams, pastor in charge, while "Hearts and Flowers" was softly played by Mrs. Coffield and Mr. Hale.

This young couple begin life under most propitious surroundings. Mrs. Franklin is the only daughter of the late Dr. J. A. Phillips, and was reared in Rockdale, receiving her education in the public schools and at Baylor College, Belton, and made many friends by her unaffected winning ways.

Mr. Franklin is connected with the Chambers-Hefley Motor Company of Cameron, and is a likable young business man. He recently returned from overseas with the 133rd Artillery of the 36th Division. He is not an entire stranger in Rockdale, having been employed by the Henne & Meyer Co., previous to going to France.

Immediately following the ceremony a luncheon was tendered the bridal party by an uncle and aunt of bride, Mr. and Mrs. O. K. Phillips. In tossing, the bridal bouquet was caught by Miss Lottie Maie Phillips. They were the recipients of many beautiful and handsome gifts.

The couple left on the 5:40 Sunshine Special for San Antonio. They will be at home after October the first in Cameron.

The Reporter unites with a host of friends in wishing for them a long and happy life.

Out of town guests were the parents of the groom, Mr. and Mrs. J. H. Franklin, and sisters and brothers of Thorndale, Mr. and Mrs. Stewart of Milano, Mrs. John de Venter of Houston, Miss Irene Addiholt of Taylor and Mr. Hayden Lawrence of Cameron.

#### FRANKLIN-PHILLIPS WEDDING

(Rockdale Reporter)

A picturesque and elegantly beautiful wedding of more than local interest was solemnized Wednesday afternoon at four-thirty o'clock at the Methodist Episcopal church, when Miss Annie Mae Phillips became the bride of Mr. Clyde Franklin.

The pink and green tones, the colors chosen for the wedding, were employed in the church decorations. The archway and chandelier over the altar were festooned in ivy and queen's crown blossoms, and the entire altar and chancel rail formed an embankment of ferns and pink Kilarney roses. The pews reserved for the relatives were marked with streamers of green satin ribbon and clusters of pink roses.

Before the entrance of the bridal party, Mrs. A. P. Perry, Jr., a cousin of the bride, sang in her sweetest notes, "O Promise Me." She was accompanied by Mrs. W. A. Coffield at the organ and Mr. Robt. Lee Hale on violin. The musicians were stationed within the altar immediately behind the floral embankment.

As Mrs. Coffield and Mr. Hale played Mendelssohn's wedding march, the two ushers, Claude Franklin and

Geo. Childress, entered from opposite sides at rear of church and approached together down central aisle. They were followed by Miss Margie Prewitt, maid of honor, who entered singly from left entrance and approached down center aisle to altar. She was entrancing in a creation of pink Georgette and charmeuse with touches of blue with which she wore a large picture hat in harmonizing shades and carried a shower bouquet of pink Kilarney roses.

Next came the bride from the left entrance, and matron of honor, Mrs. Ben Lowenstein, a cousin of the bride, from right entrance. They met at center aisle and approached together to altar. The groom and best man, Mr. H. Skelton, entered simultaneously down left aisle and were joined by the bride and matron of honor at nuptial altar. Mrs. Lowenstein was gowned in a lovely Nile green taffeta and tulle with which she wore a large black velvet picture hat. She carried a shower bouquet of pink roses and ferns.

The bride who is of striking Titian type, was beautiful in a tailleur suit of brown silvertone cloth, which emphasized the Russian lines. With this she wore a small hat, gloves and shoes in the harmonizing shades. She

## There Is A Best-In Every Line-

For over 28 years the quality of the merchandise we sell has been maintained regardless of the price, the Thomas name during this 28 years has been synonymous with drugs and drug store goods; with jewelry, cut glass and silverware. You have always found in your purchases at this store that the quality has been maintained and never lowered in order to meet a price.

Our stock has never been more complete with quality goods of standard make than it is today and when you wish goods of quality in drugs, drug store goods, in jewelry, cut glass and silverware you will find them here and they will cost no more than the so-called cheaper kinds.

DRUGS AND JEWELRY

#### POPULAR YOUNG COUPLE MARRIED AT ROSEBUD

(The Rosebud News.)

Mr. M. W. Balhom of Cameron and Miss Willie Asbury were united in marriage at the Methodist church in this city Sunday afternoon at 5:15 o'clock, Rev. B. T. Bell officiating.

The groom is a well known young business man of Cameron where he has the respect and esteem of everyone.

The bride is the daughter of Mrs. John T. Asbury of this city and is exceedingly popular with a large circle of friends.

The happy couple left immediately for Yoakum and other points where they will spend some time before returning to their future home at Cameron.

#### N. C. FOUR DRIVEN BY FORD MOTORS

"Engines functioned perfectly," said Lieutenant Commander Read, who commanded big seaplane.

The Ford Motor Company has just received official advice from the Navy Department that it was four Ford Liberty Motors, all built in the Ford Motor Company's shops at Detroit, which furnished the power that drove the NC Four to victory in its recent record-breaking flight across the Atlantic from Trepassey, Newfoundland, to Plymouth, England, a distance of 4,000 miles. They were regular stock motors built during the war as a part of the Ford Liberty Motor production.

Upon his arrival in Lisbon, Portugal, Lieutenant Commander Read said: "The engines functioned perfectly all the way from America to Portugal." And the American Naval Officers who thoroughly inspected the NC Four upon its arrival at Plymouth, England, stated that the big seaplane was in even better condition than when it left America.

The NC Four flight, which has meant a triumph for American engineering skill, also adds another record to Ford achievement.

#### No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

The first concrete steamship built on the Atlantic seaboard has been placed in service between New York and the West Indies.

666 has more imitations than any other Chill and Fever Tonic on the market, but no one wants imitations. They are dangerous things in the medicine line.—Adv. 18

If it's in The Herald, it is news.

#### NO SHOES FOR GIRL THIRTEEN

London.—Because she cannot get boots for her daughter to wear Mrs. Flack told the Epping magistrates that she was unable to send her to school. The daughter, Hilda, weighs 210 pounds, although she is only 13, and bootmakers refuse to make boots for her.

# POLITICAL POT AT STATE CAPITAL IS BEGINNING TO BOIL

Austin, Sept. 20.—Politically there have been few developments during the past week. The list of gubernatorial candidates has not been swelled

by any formal announcements and only Pat Neff is making a campaign. Mr. Neff is confining himself to congratulations and is not getting into details of issues.

The Bailey followers appear not to have yet recovered from the shock of Bob Henry's announcement that he is going to run on their platform. Not a word has come from any of the multitude of leaders of the faction congratulating Mr. Henry upon his foresight and assuring him that he is welcome—not a single word.

Governor Hobby's attitude is sized up in his statement at the Hill county fair to the effect that "I want to get out of office but expect to stay in the fight."

Those who are considering the matter of running for governor have been somewhat enlarged recently. The list is now a lengthy and includes former Attorney General B. F. Looney, Speaker R. E. Thomason, Railroad Commissioner Earle B. Mayfield, Comptroller H. B. Terrell, George W. Riddle of Dallas, William Poindexter,

Marvin Brown, and there may be some further additions to the list in the near future.

Governor Hobby is the only defender of the party to date; though there are stirrings on the part of some other of the aspirants leading one of to the belief that as fair season advances there will be expressions from quite a number in reply to the Ferguson-Bailey Republican attacks.

The governor is due to speak at the Shelby county fair and may accept other invitations if he can find time. It is his intentions to continue at least until there is response on the part of other democrats to the challenges thrown out by Ferguson and Bailey.

Chairman M. H. Wolfe does not appear to regard the time opportune for any consultation on the part of the members of the executive committee; at least he has issued no call for a consultation and probably has an idea that the whole matter is a sort of a small windstorm and not at all par taking of the dimensions of a tornado.

Nothing further has been heard of the threat to establish new morning papers at Houston, and Fort Worth; though this is deeply in the minds of Mr. Kirby and a few others of the wealthy men who are adherents of the Bailey faction.

Nor have there been any tidings of Senator Bailey's whirlwind campaign through the state which was promised to burst forth at about this date, immediately following the equinox.

Semi-official French figures show that more than 55,300,000 pounds of raw silk were produced in the world last year, a decrease of nearly 6,000,000 pounds from the year before.

An adding machine small enough to be easily moved from place to place has been invented which completes its work without it being necessary to pull down a handle at one side.

### CLUB BOYS TO ATTEND STATE FAIR AT DALLAS

Six hundred club boys of Texas will attend the encampment at the Dallas Fair Oct. 7 to 11, inclusive, H. H. Williams, assistant state farm demonstration agent of the extension service, A. & M. College, announced on his return from Dallas, where he made arrangements with fair association for the encampment. The boys will represent one hundred and fifty counties.

According to Mr. Williams the fair association will be host to the boys and they will be admitted free of charge to the fair grounds and its entertainments. A number of contests and exhibits are being planned, and from the contestants there will be a team of three boys and one substitute for the International Non-Collegiate Stock Association, which will meet in Chicago in December.

### SMILES.

There are smiles and smiles and smiles.

Some mean nothing, and others mean so much that you cannot read them at all. Some come and go, others are fixed as the paint and powder that usually goes with them.

Just now comes the thought of a smile we happened to see the other day. She was standing before a window filled with hats, looking at a soft brown velvet, rather large with a touch of gold on the brim. The years had brought her lots of compensation we know, but they had included no brown hats. She wanted that hat, yet she knew she would not buy it. It belonged to the woman of years ago, who had lots of brown hair, a skin with the blush of a rose, and eyes that were right, and she saw just how she would have looked in it, the look in her eyes was so absent and far away.

And then she smiled—the most tender, understanding smile—a smile for the girl she had dreamed about, and then a little laugh of good humor for herself.

666 has proven it will cure Malaria, Chills and Fever, Bilious Fever, Colds and LaGrippe. It kills the parasite that causes the fever. It is a splendid laxative and general Tonic.—Adv. 18

### WEEKLY FINANCIAL REVIEW.

Prepared for The Cameron Herald by the First National Bank in St. Louis.

An analysis made by the Shipping Board of commerce carried in vessels under control of the board has just been made public.

During the month of June the month selected for the inquiry, 293 freighters left American ports carrying 1,177,444 tons of cargo.

During the entire year of 1914, total value of domestic exports carried in American ships was \$166,055,061. In the same year foreign vessels carried out American shipments valued at \$1,861,735,581 or 91.8 per cent of our entire export trade for the year. The Shipping Board's analysis shows that in June 1919, American vessels carried domestic exports valued at \$268,228,502, or, in one month, \$102,173,421 more than was carried in American ships in the entire year 1914. Foreign ships carried American exports to the value of \$540,424,486 during June.

Our job department is complete. We know what hurry means.

# Ford

THE UNIVERSAL CAR

It's no longer necessary to go into the details describing the practical merits of the Ford car—everybody knows all about "The Universal Car." How it goes and comes day after day and year after year at an operating expense so small that it's wonderful. This advertisement is to urge prospective buyers to place orders without delay. Buy a Ford car when you can get one. We'll take good care of your order—get your Ford to you as soon as possible—and give the best in "after-service" when required.

Chambers-Hefley Motor Co.  
Phone 411 Cameron, Texas

### How We Go At It

First we look into the battery to see if you put water in it.

Then we use the hydrometer which is the one reliable way of knowing the condition of its charge.

Then, if no special cause of trouble appears we put it on the line to see if it will take a charge.

But if there is plain indication of serious trouble we open the battery up and find out exactly what's what.

Don't trust your battery to amateurs or artists in guesswork, who claim they can tell inside condition by outside inspection.

Come here where you find adequate machines and apparatus to really inspect, charge and repair any battery.

THE CENTAUR COMPANY, NEW YORK CITY.

## FITTING HOGS TO BRING TOP PRICES

The high prices at which good hogs are selling and the penalty which half-fattened and soft hogs grown in the South suffer on nearly all markets make the fattening of this year's fall crop of hogs an important matter. A loss of three or four cents a pound on a hog because he is not properly fitted for market frequently means the loss of the best part of the profit. Too few of our farmers, when considering the question as to whether it will pay to feed a 125-pound pig until it weighs 200 pounds, lose sight of the fact that the increase of two to three cents a pound applies to 200 pounds of hog. If 75 pounds more is put on, not only that 75 pounds will bring 2 or 3 cents more per pound, but the original 125 pounds is also increased in value to the same extent.

If a 125-pound pig brings \$21.25, or 17 cents a pound, and a 200-pound hog brings 20 cents a pound, or \$40, then the feeder has not only received 20 cents for the added 75 pounds, but he has also received more for the original 125 pounds which the pig weighed, or he has received 25 cents a pound for the 75 pounds added.

The article of inferior quality or one not put in good marketable condition not only always suffers the just penalty which it should bear, but it also suffers an additional penalty in the market because it is not wanted. The markets want well-finished hogs; that is, there is a larger demand for the finished animals, consequently a larger demand as well as greater value induces the buyers to pay a greater premium for it.

At the present prices of hogs and feeds, it will pay to give the 100-pound pig of fair quality enough feed

to make him weigh 175 to 225 pounds. This applies to practically all the feeds suitable for hog feeding, provided they are used with good hog-feeding sense.

## BRINGS WONDERFUL PRESCRIPTION TO ALL ECZEMA SUFFERERS.

Zemerine, the latest scientific prescription for the treatment of eczema, itch, and similar skin diseases, is now sold in leading drug stores. Until recently it was the guarded formula of a great physician, and men have paid a higher price for the treatment, but now it is within the reach of every sufferer.

It's time to say good-bye to inflamed and burning skin. Farewell to irritating and unpleasant sores, blotches, and blots which mar your face and make you uncomfortable. Zemerine can give you relief at it has others. Give it a trial under our guarantee, your money back if it fails to benefit you.

Simple directions accompany each bottle. Sold in two sizes, 50 cents and \$1. Start today and learn what relief means. If your druggist can't supply you, the Zemerine Chemical Co., Orangeburg, S. C., will send you a bottle prepaid upon receipt of the price.

Literature written more than 1,000 years ago mentions two breeds of poultry still being raised in China while incubators now used are the same in principle as those employed in Egypt 4,000 years ago.

Rub-My-Tism is a powerful antiseptic; it kills the poison caused from infected cuts, cures old sores, tetter, etc.—Adv.

## A GREAT OPPORTUNITY FOR LADIES AND YOUNG MEN

The demand for telegraph operators was never as great as at the present time. The largest telegraph school in America—equipped with over a hundred sets of instruments, miniature train service, a train wire of a main line railroad, all telegraph and freight blanks and books of record; tickets, and in fact everything just as complete as found in one of the best equipped railroad offices, the best teachers to be obtained, thoroughly experienced in commercial and railway telegraphy, station and freight work—The Tyler Commercial College, of Tyler, Texas, is unable to supply the demands of the railroads, Western Union and Postal Telegraph Companies for operators. Read the following letter from the Superintendent of Telegraphy of one of the large railroad companies:

Tyler Commercial College, Gentlemen: If you will send us the high class students you have been sending we can use all that you can send. Could use a large number at the present time if you have them. In this connection will say that students you have sent us have been very satisfactory and have developed in some of the best telegraphers and agents that we have. Trust that you will be able to send us more of your students at once and keep them coming as fast as they are capable. I had the pleasure on August 2nd to visit your great school and made a personal investigation of the methods used by you in preparing student telegraphers, and I find they meet with all requirements of my road, and I wish further to say you have the largest and most complete and thorough business college that I have ever seen.

R. F. FRENZER, Supt.,  
Telegraph Union Pacific Railway.  
Our telegraph students are on all the leading Southwestern roads, and in Western Union and Postal Telegraph offices. With our help you can be a bigger success. Write for free catalogue. We place our graduates promptly free of charge. Tyler Commercial College, Tyler, Texas.

If you read it in The Herald—You know it is news.

## "BAYER CROSS" ON ASPIRIN

Always Ask for Genuine  
"Bayer Tablets of Aspirin"

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown quantities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder.

"Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper direction and dosage in each Bayer Package.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacides-ter of Salicylsacid.

## SOAKING THE FARMER.

"Production of farm products must be increased to reduce living costs." "The chief complaint of the nation on the high cost of food to the consumer." "It is the duty of every farmer to make his farm produce all it can."

The above sentences are taken from one article on the cost of living. The papers are full of such dope. Many editors of daily newspapers, catering to the towns and cities because there are more votes in the towns and cities and town and city people are sending up a mighty howl over the prices of farm products. These people are not aware of the facts that the farmer has nearly always been "skinned" on the price of his products, and that if he were paid for his labor at the same rate per hour paid town and city people, milk would sell for 40 cents per quart, eggs for \$1 per dozen, flour 10 cents per pound, and so on.

The officials in Washington have heard the city and the machinery of the government is making one great drive to force the price of food down. Last spring we were advised to use every ounce of energy and every cent of available capital to produce enormous crops to feed a hungry world, and we have produced the limits. We have produced at a higher cost than ever before, expecting a square deal from our government, but it seems that the prices of our products must come down while we continue to pay high prices for clothing, shoes, hats

and the numerous other things that we must buy.

The opening sentence of this article says, "Production of farm products must be increased to reduce the cost of living." Nothing is said in the article from which this sentence is taken or in any other article relative to increasing the production of factories for the purpose of reducing living costs. It is all right for factories to reduce the output in order to maintain profitable prices, but "It is the duty of every farmer to make his farm produce all it can." Such ridiculous advice will not be heeded much longer by intelligent farmers.

We never miss the mail. Read the Herald.

A patent has been granted for a device featured by a sort of three-handed clock dial to indicate the day of the week, day of the month and hour when a man absent from his office will return.

## PRINCESS CASH STORE

BOUGHT BY J. A. FOX

(Waxahachie Light)

Messrs. O. D. Adams and Jno. W. Morton, owners of the Princess Cash Grocery, have sold their business to J. A. Fox of the Waxahachie Dry Goods Company, and Mr. Fox has placed G. S. Webber, late of Madill, Okla., in charge.

The new management took charge of the business Monday afternoon, and are going in to get a share of the grocery business in Waxahachie. Mr. Webber is a brother-in-law of Mr. Fox and he and his family are making their home temporarily at the Fox residence.

Mr. Fox announces that his purpose is to re-instate the delivery service maintained until recently by the Princess and feature this service in bidding for trade. He has a competent corps of assistants in the store and expects to continue the business without interruption, taking care of all patrons of the store and reaching out after new business.

Messrs. Adams and Morton do not intend to leave Waxahachie, but have not yet announced their plans for the future. They operated a first-class establishment here and have made many friends.

## OAKVILLE SCHOOL DISTRICT.

STATE OF TEXAS )  
County of Milam )

Notice is hereby given that an election will be held on the 10th day of October, A. D., 1919, at Oakville, (white) school house in Common School District number 32 of this County as established by order of the County Board of Trustees of date the 7th day of April, 1919, which is recorded in Book 1, Page 44 of the book designated "Record of School Districts," to determine whether a majority of the legally qualified property tax-paying voters of that district desire the issuance of bonds on the faith and credit of said Common School District in the amount of \$3,000 the bonds to be of the denomination of \$150 each, numbered consecutively from one to twenty, both inclusive, payable serially in twenty years from date and bearing five per cent interest per annum, payable annually on April 10th of each year to provide funds to be expended in payment of accounts legally contracted in constructing and equipping a public free school building of wood material and purchasing a site therefor within said district, and to determine whether the Commissioners Court of this County shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding, a tax upon all taxable property within said district sufficient to pay the current interest on said bonds and provide a sinking fund sufficient to pay the principal at maturity.

All persons who are legally qualified voters of this State and County and who are resident property tax payers in said district shall be entitled to vote at said election.

Said election was ordered by the County Judge of this County by order made on the 16th day of September, 1919, and this notice is given in pursuance of said order.

Dated the 16th day of September, 1919.

L. L. BLAYLOCK,  
Sheriff, Milam County, Texas.

## CITATION

THE STATE OF TEXAS )  
County of Milam )

To the Sheriff or any Constable of Milam County—Greeting:

You are hereby commanded to

summon Andrew Williams by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 20th judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said Milam County, to appear at the next regular term of the District Court of Milam County, to be held at the court house thereof in Cameron, on the 10th day of November, 1919, the same being the 2nd Monday in November, 1919 then and there to answer to a petition filed in said court on the 24th day of November, 1919, in a suit, numbered on the docket of said court No. 8017, wherein Mollie Williams is plaintiff and Andrew Williams is defendant. This suit is for divorce upon the ground of more than three years abandonment of plaintiff by the defendant with intention of permanent abandonment commencing in October 1915, plaintiff praying for dissolution of the bonds of matrimony existing between her and defendant and for costs of suit

and general and special relief, etc. Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon showing how you have executed the same.

Witness: PENN WOLF,  
Clerk of the District Court,  
Milam County, Texas.  
Given under my hand and the seal of said court, in Cameron, this the 24th day of September, A. D. 1919.

## Better Poultry on the Farm

is a necessary part of the new order of things. The world needs more poultry and the farmer who keeps abreast of the times should not be lax in taking advantage of the enormous demand.

Poultry raising is pleasant and may be made of distinct profit to the farmer if he will follow strictly the three following essentials to profitable poultry production:

- All operations must be put on a scientific basis, regarding care of poultry, housing facilities, etc.
- A careful study of the market demands as to quality and the high standard of excellence to be maintained.
- Observance of marketing problems, in order to make disposition to the very best advantage.

Good poultry is a safe investment. We urge you to increase your poultry supply and shall be glad to assist you if you will call upon us.

+ **FOR PARENTS** +  
+++++  
Our All the Year Round Garden Family.

(By Ellen Eddy Shaw, Curator  
Brooklyn Botanic Garden.)

The best behaved fall garden child I know is Daffodil, and next to her, her little brother, Jonquil. Sometimes great big fat Hyacinth behaves, but small, brown-coated, smooth-looking, long-nosed Daffodil is quite the nicest. So buy a few daffodil and jonquil bulbs and get acquainted with these two good children.

Notice particularly how similar little Jonquil's coat and nose are to his sister's.

I would let our new friends stay on the table for several days before I planted them, so that we might get to know them by sight and by name, as we learn to know real flesh-and-blood children. But I would be very careful to place these little comrades so that the rounded part or base was down and the pointed face sticking up, and I would never squeeze their noses!

By and by the day will come when Jonquil and Daffodil must be planted. There are several ways of doing this. Suppose we use a glass jar first. It may be a little fern bowl, like the one in which partridge berries are sometimes planted. We fill the bowl almost full of fine white sand and if we have no sand we take some baskets or our little carts and go to a house that is being built and ask the builder if he will give us just a little sand for our garden. Into this bowl full of sand we plant our daffodil or our jonquil bulbs. They must nestle down so that only a little bit of their noses stick out. Two bulbs must never touch each other. They would not be comfortable that way. Two little girls would not like to sit so close to each other at the breakfast table that neither one could move. We must always make our plant children as comfortable as we are ourselves.

Next give the bulbs a "big enough drink to soak the sand thoroughly, but not enough to have water standing on the surface. Now put the bowl away in the dark. The place does not have to be cool, but every little while the sand should be moistened.

In about ten days or two weeks, lo and behold, you will notice long white roots struggling all around and thru the sand close to the glass where you can see them, and the noses have put forth some white leaf-like shoots. It is now time to bring our little garden

to the light. Then in just a few days a miracle takes place. The roots have shot back into the sand; they do not like the light, and want always to remain cool and covered. The noses have turned green. And within about three weeks Daffodil and Jonquil blossom!

Sometimes instead of using the sand, place some small stones in a low, pretty bowl and arrange the bulbs on top of them. This bowl should be put away in the dark for about ten days or two weeks, and then brought out into the light. There should always be enough water to touch the base of the bulbs but never to come around them. This, you see, is just the way we start Chinese lily bulbs, but Daffodil behaves better than the Chinese lilies because her blossoms rarely blast.

If you like, Daffodil and Jonquil may also be planted in a pot or soil. Even so, leave their noses sticking out and you must put them in a dark cold place for five or six weeks. It is better, I think, to use the sand or the stones with Daffodil and Jonquil because then you don't have to wait so long for them.

After you have planted your first two or three daffodils and find out just how long it takes in your home for them to blossom, you could start some for father's birthday, timing them just right. Of course, it is understood that father will be kind enough to have a birthday this fall. If he will not, then mother or grandmother or baby surely will. I cannot imagine a family without at least one birthday in the fall or early winter.

## You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

**GROVE'S TASTELESS CHILL TONIC** restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

**GROVE'S TASTELESS CHILL TONIC** is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

To the parent: Just what does a child get out of this little garden? One lesson is a lesson of observation, and another is one of care; careful handling, careful planting and careful watering. The greatest lesson is the lesson of life. How out of something apparently lifeless there springs into being something living, beautiful and sweet. It is a great revelation to anyone, young or old, to handle life and to be able to produce something living, to care for it, and to make it comfortable and happy. And then, you can have such fun planting bulbs. Make a ceremony over it. Fuss about it a little. Use your imagination. Make a picture of the ugly little brown bulb and, later, another of the child which comes from it.

Of course there are other bulbs one may plant, but I am choosing two perfectly satisfactory, absolutely responsible ones. I believe that in work with very little children one should rarely choose what may be a failure. So, in our all-the-year-round garden we pick out successes. Do not forget the names of our fall children, Daffodil and her little brother, Jonquil.

Help to reach all the parents of the country by cutting this out and passing it on to a friend.

## GIRLS! WHITEN YOUR SKIN WITH LEMON JUICE

Make A Beauty Lotion for a few cents to remove tan, freckles, sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whitener and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

+ **SOMETHING FOR PASTIME** +  
+++++

Sailor: "Oh, yes, I've been submarine service for two years."

Lady: "How interesting! And won't you tell me how you get the salt water out of your hair?"

The French soldier found as much cause to complain about English as she is spoken as our lads did with the lingo over there. One of the tri-color veterans chirped up one day by letting out: "Ze English spoken, pas bon. Here ze sentence: 'What color is ze blackberry when it is green?' and I find out he is red!"

"Poor boy, you lost your arm!" a well-meaning old lady said to one of our returned heroes. "Well, ma'am, I don't mind that so much," replied the lad, "but it had a \$15 wrist watch on it!"—Ontario Post.

Two pretty girls met in the street and kissed each other rapturously. Two young men watched the proceedings.

"There's another of those things I hate," said one.

"What's that?" asked his friend.

He pointed to the scene. "Women doing men's work."

A nurse had just expressed her desire to remain in France when a wounded negro spoke up.

"Lady, yo' shor' doan mean them words? If Ah ever gets to Alabama one mo' time, an' thinks Ah'm gwine tuh even dream about dis heah country, why, Ah des gwine tuh set up all night long."

Scene—any seaside resort.—"Hear the moaning of the tide, John." "That's not the tide. It's the hotel guests paying their bills."—Life.

"Sam, did you see many dead men while you were in France?"

"Yes, sir, we even slept wid 'em."

"Well, Sam, weren't you scared?"

"No, sir. I used to bum around wid 'em before I went to war."

"How's that?"

"I was a hearse driver sir."

Last night I held a little hand, So dainty and so neat; I thought my heart would surely burst,

So wildly did it beat. No other hand into my soul

Could greater gladness bring. Than that I held last night, which was

Four aces and a king. —Tanshun 21.

Lady: "Here, my poor fellow, is

a quarter for you. It must be dreadful to be lame, but I think it must be worse to be blind."

Tramp: It is mums. When I was blind they was always handing me counterfeit quarters."

## Something New.

"The Subbubs are no fools."

"Why? What did they do?"

"Gave a lawn-mowing party and had the guests cut the grass."

She did not get away, Miss Miff, With that amusing jape; Grace said, "You'd be a Venus, if It wasn't for your shape."

Camels win instant and permanent success with smokers because the blend brings out to the limit the refreshing flavor and delightful mel-

low-mildness of the tobaccos yet retaining the desirable "body." Camels are simply a revelation! You may smoke them without tiring your taste!

For your own satisfaction you must compare Camels with any cigarette in the world at any price. Then, you'll best realize their superior quality and the rare enjoyment they provide.

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

A THOUGHT

God set the example of work, careful, productive industry. He created the world, made man in His own image, and bade him be fruitful and multiply and replenish the earth and subdue it; and have a dominion over the fish of the sea, and over the fowl of the air, and over every living thing that moveth upon the earth. God set us the example of work. Laziness has no place in His plan for human development. Your first duty is to lead busy, productive lives. This is the first homely truth, just as it has been in all ages and under all conditions, and just as it will be. The Master Himself said: "My father worketh hitherto and I work."—Dr. Charles Meserve.

Mrs. Thomas White of Amarillo arrived in Cameron Saturday and in company with her daughter, Mrs. Emmett Barmore, went over to Liberty Sunday to visit another daughter, Mrs. Blanche Pierce.

Our Job Department is complete.

LETTER FROM  
DR. GODDARD  
ABOUT INFLUENZA

Last week I called your attention to the probability of a recurrence of influenza this fall and winter and stated that in the past the death rate grew larger with each recurrence. You were advised to get busy preparing yourselves and your town in anticipation of a recurrence. Since that time reports have reached this department of cases of influenza in three widely separated sections of the state.

While there are many things that have always acted as leading factors in promoting public health work, the dominating impulse should be the desire to prevent sickness, suffering and death, a love for one's fellow man and the desire to do everything possible to add to his comfort and welfare. Civic and personal pride follows closely as a factor promoting public health, for a desire to have the cleanest house and cleanest town should be the pride of every one.

I am now calling on you to set aside one day this week as "CLEAN-UP AND ORGANIZATION DAY." Do not stop until you have organized your forces and given your town a thorough cleaning. After a thorough clean up, let us have for our motto "No more trash littered back yards, streets or alleys; no more vacant lots overgrown with weeds and grass—no more pools of stagnant water."

I am asking that all health boards call a meeting this week and invite the school boards, the Commercial Club, the civic clubs, the parent-teachers association, the physicians and nurses, and all other organizations interested in problems of health, be invited to participate and at this meeting organize forces, perfect plans for a present clean up, and provide for follow-up workers and emergency demands that may arise.

In anticipation of an epidemic of influenza or one of any other nature, organize your forces, enroll your workers and have everything ready to meet an emergency at a moment's notice.

If your numbers will permit I sug-

gest that the following officers and committees be appointed, and charged with looking after that particular phase of the work:

1. A president, or superintendent of public health, with a secretary.
2. A committee to raise funds to meet the demands, present and future.
3. A committee of follow-up workers, or inspectors to see that everything is kept in proper shape after having been put in proper condition.
4. A committee on law enforcement, to see that all sanitary laws are enforced and all offenders prosecuted.
5. A committee on public health education. This committee should be composed of physicians and nurses, who are willing to devote a short time at stated intervals, to giving instructions in public health rules, work and problems.
6. A relief committee, whose duty it shall be to see that all indigent cases are supplied with necessary medical attention, food and clothing during any epidemic.
7. A committee of volunteer workers. This committee should enroll names of all physicians and nurses, trained and practical, who are willing to respond to requests of the relief committee and give free medical attention to indigents who are not wards of the city or county.

Where your numbers will not permit of organizing so many different committees, you can combine duties and arrange so that all the above mentioned features will be taken care of by such a number of committees as you are able to organize.

That old cry of "the town is broke—we have no funds," can no longer be tolerated, especially since the work necessary entails no heavy expense, and promises so much in return.

Public opinion is the one influence that knows no restraint, that puts into practice that old adage: "Where there is a will, there is a way." It is now up to you to create that sentiment, and you can in the name of interest and humanity, you should do it.

It is your duty to do so, and your town will be healthier and more attractive by your having done so, and your consciences will be clear by having done your duty toward yourself and your fellow man.

C. W. GODDARD, M. D.,  
State Health Officer.

HOW TO GET OUT OF MUDHOLE

The art of getting a car out of a mudhole is one worth practicing or at least thinking about—for no one wants to practice it. Some of us have had to, however.

In going thru a mudhole with a truck or car, the driver sometimes gets to the place where the wheels will slip and the machine will not move forward. When this happens, it is useless to continue the work of trying to go forward for it will only cause tire wear.

Many times the machine can be backed out of such a difficulty. The reason for this is that it has plowed its way ahead, and nine times out of ten the back way is more open.

If the car cannot be backed out in this way, then the job may often be done by cutting brush and placing under the wheels to serve the same purpose—or burlap bags. Some motorists take large pieces of canvas or burlap with them for pulling out of muddy and sandy places.

If you read it in The Herald—You know it is news.

## Cam-Hi Weekly News

September 25, 1919.

Vol. 2

Number 1.

## Editorial Staff:

Mildred Chambers, Editor-in-Chief,  
Gale Parma, Assistant Editor,  
Henry Tracy, Athletic Editor,  
Winnie Yoe, Senior Editor,  
Billie Clark, Junior Editor,  
Little Joe Mohler, Sophomore Editor,  
Harleigh McGregor, Freshman Editor.

At the beginning of every school year there is always a noticeable growth in high school enrollment. But this, of all years, shows the greatest increase, and we are trying to make both students and new teachers feel more welcome than they have ever felt before. The study hall is crowded to its capacity, but every one is glad to see this increase and everyone is willing to give up just a little bit of space for the other fellow. There is fast developing among the students a congenial spirit, a willingness to share with others. This leads the student body to look about more and to realize that there is some one just across the aisle, perhaps, who has a life to live and who is trying to be prepared to live the best that is in him. It is all in the spirit, after all, and this is the spirit of old Cam-Hi.

Thus friendly interest is not confined to the students alone but reaches out to the faculty—and truly chagrined from their very hearts. There are some "ups and downs" to come, of course, but we are aspiring to climb up so high that all the downs will be small in comparison. The stern pedagogue who makes the poor student quiver in his boots, so to speak, is no longer with us. One might think we are just a body of boys and girls studying together trying to do our best—our teachers as leaders, not drivers. We do not mean to say there is not a great respect among the students for the teachers; but this is really respect that comes of good friendship and is not fear.

With this existing relation of the faculty and study body, and general good fellowship all around, we are facing the new school year.

## A VIOLIN TEACHER.

Attempts are being made to secure a violin teacher. This teacher is to come down from Waco one or two days a week. This department of music is very essential, especially to the orchestra, and will be a great addition to the school.

All those who are interested, see J. N. Crawford as soon as possible in order that the teacher who is to come may be guaranteed as large a class as possible.

CAM-HI WEEKLY BE-  
COMING WIDELY KNOWN

The editorial board of the Cam-Hi weekly is in receipt of a letter from the Exchange Editor of the School Newspaper of Hurley, New Mexico. They are contemplating a school newspaper and wish to establish an exchange with us.

The editorial board is very glad to create such an exchange. Many schools are editing, or intend editing papers and we shall try to come in touch with as many of these schools as possible.

## FOOT BALL

When our work started for this year in the line of foot ball we soon understood that our new coach, Mr. Cameron, meant business. The team has been hard at work, and is rapidly being whipped into shape. Capt. Terry Wiley is on the job every afternoon with all the men available and we are sure that with all the new men we have in school this year we will have a team that will make victories easier than ever.

A large per cent of the old men have come out for the same positions they played last season. The total number who are interested in the game will make about three full teams and this will indicate that the

F. SCHARITZER

men who make the team will have to work.

The back field will be made up of some of the following: Wiley, Bigbee, Barmore, Denson, Willis, Matula, Epperson, Price, Kemp, Mayfield, and Burk.

Look out for our first game we are to have it soon.

## EDITORIAL STAFF.

As school has started the entire student body looked forward to the first edition of the Cam-Hi Weekly News. After a few days of anxious waiting a meeting was held in the study hall with Mr. Crawford as acting chairman. He stated the plans for the 1919-20 newspaper and then announced that the English department and the principal had decided to select the Editor-in-Chief, and had selected Mildred Chambers for this office. The election was put in the hands of the students and the following officers were elected: Gale Parma, assistant editor; Henry Tracy, athletic editor; Winnie Yoe, Senior editor; Billie Clark, junior editor; Joe Mohler, Sophomore editor, and Harleigh McGregor, Freshman editor.

The class editors were elected by the respective classes.

## SENIOR CLASS ORGANIZES

On Tuesday, September 18, the senior class of 1919-20 under the supervision of Miss Bass came together to organize. After a few remarks by different members of the class, nominations were put in order and the following officers were elected: Terry Wiley, president, Miss Katy Cone, vice-president, Leland Denson, secretary and treasurer.

The aim of this splendid class of forty-six is to make the best record of any class before this time or any class to come. In order to carry out this aim we are beginning early to call forth the class spirit and enthusiasm by having songs and yells. Miss Mildred Chambers has been appointed as chairman of the committee for securing songs and Thomas Hefley as chairman of a similar committee for securing yells. It was decided that a very good method for getting the class together and in spirit for class work is to have a social gathering, and Miss Juanita Caldwell as chairman of the social committee has been requested to arrange, with the assistance of her committee, a social event for the class as soon as possible.

The class is anxious to begin work immediately on the Annual.

## FRESHMAN SCIENCE CLASS

The freshman science class has organized a "Poultry Club" in order to learn the scientific method of raising

poultry. That is, learn to feed chickens the proper kind and amount so as to make them produce the greatest number of eggs possible.

Mr. Crawford, our instructor, has bought twelve fine blooded White Plymouth Rocks, which cannot be surpassed in this part of the country.

Last Wednesday afternoon the boys interested in this work labored faithfully until they completed permanent headquarters for the chickens. The girls served a lunch to the following who are charter members of the club. Ruth Redfield, Eula Norman, Thistle Smith, Elizabeth Gray, W. D. Blackstone, Harry Thatch, Togo Joynes, Rube Johnson, Marvin Sykes, Alvin Dusek, Baby Henrichson, John Henry Yoe, Franklin Dusek, Ernest Marshand and Ray Mayfield. Several new members were added to the club on Thursday.

After lunch was served the following officers were elected: Rube Johnson, president; Togo Joynes, vice-president and Elizabeth Gray, secretary-treasurer.

## WEEKLY EXPLOSIVES

Furthermore, we wish to state that the freshman class has become confused and has held an election for class officers. The stampede among the candidates reminds us of the circus crowd.

It is our idea that it is time for Seniors to gain their privileges.

Some one has said that natural history is very essential. Then why aren't we having a holiday for the circus?

The Cam-Hi widow is not here yet. She has been delayed on account of the rain. Her car, a new Success Speedster, has water in the radiator, and is hitting on too many cylinders.

Mrs. Solomon says that profiteering applies to the school business too. The student body agrees with her. We want high grades, but we are honest and will give valuable work in return.

## Editor's Note.

(The readers probably notice that this, the first edition of volume two of the Cam-Hi Weekly, is much shorter than usual. This is due to the fact that the election of the editorial Board did not take place in time to

## HEMSTITCHING

We are making out of town orders a specialty. Also plaiting from 1 to 45 inches. Mens shirts made to order. All wash materials shrunk. Mrs. B. E. Bedell, 1504 Congress Ave., Austin, Texas. 20 pd

A patent has been granted for a device featured by a sort of three-handed clock dial to indicate the day of the week, day of the month and hour when a man absent from his office will return.

## WHY PUSH OUT THE CLUTCH?

A good many people ask this question, "What's the use of pushing out the clutch when you start your motor as long as the shift lever is in neutral and there is practically no load on the engine?" The question sounds like a logical one but as a matter of fact it is based on a wrong supposition. There is really a considerable load on the engine, just on account of the shaft and gears that must be turned.

Just try this test if you want to see how much this load amounts to.

Turn your engine over by hand some morning with the clutch in. Then have some one hold the clutch pedal down, or fasten it down with blocks and try it again. If you turn the engine over rapidly you will see that there is quite a difference and the load is much greater when the engine spins at the rate the starting motor turns it.

It pays to keep in mind the fact that thickened oil has a very definite baking action and this action is very greatly lessened when you push down on your clutch pedal.

## Tan-No-More

## THE SKIN BEAUTIFIER

The most scientific and most wonderful facial preparation of the modern age. It imparts to the skin a velvety softness and delicacy which is delightful in appearance and pleasing in effect. Used during the day it is a protection from the Sun and Wind. In the evening its use assures a faultless complexion. Tint: White and Flesh. # SEPARATION OF STATE SCHOOLS IMPORTANT MATTER

Dallas, Texas, Sept. 22.—The importance of the adoption of the pending amendment to the constitution providing for the separation of the University and the Agricultural and Mechanical College which is to be voted on at the election in November is set forth clearly in an address to the citizens of Texas which has just been

issued by the executive committee of the organization which is in charge of the campaign on behalf of the proposed amendment. Leonard Tillotson of Sealy is chairman of this committee and Joe Uday of Dallas is secretary. Other members of the executive committee are, T. H. Shelby of Taylor, William Sleeper of Waco, C. G. Thomas of Lewisville, Nat M. Washer of San Antonio, J. A. Kemp of Wichita Falls, Judge Ned Norris of Palestine,

W. W. Turney of El Paso, E. W. Kirkpatrick of McKinney, T. S. Henderson of Cameron.

By the adoption of the amendment the constitutional status of the University and branches, the Agricultural and Mechanical College and branches, the College of Industrial Arts, the several state normal schools, and the Prairie View Normal and Industrial College for colored youths would be determined. It is pointed out in this address that the rapid increase in attendance at the University and the Agricultural and Mechanical College, together with the extraordinary development that has attended the College of Industrial Arts, and the notable improvement in character of instruction and training given by the several state normal schools all attest in the most impressive measure the widespread and earnest interest of all classes of people of the state in liberal provision for higher education and specialized instruction and vocational training.

By the adoption of the amendment there will be laid the foundation of

a thoroughly co-ordinated system of educational instructions, each performing the maximum of service to the people and all working in accordance with unified plan of educational achievement as well as for a common purpose, without unnecessary duplication, with increased power of efficiency.

The proposed amendment would remove the restrictions upon appropriations for the University or its branches. Many years the legislative interpretation of the constitution was given by which appropriations for buildings and equipment for the Agricultural and Mechanical College were permitted while denying similar appropriations for the University. The amendment provides for the division of the permanent University endowment fund between that institution and the Agricultural and Mechanical College on the basis of two-thirds to the University and one-third to the college. This basis of division is regarded as universally fair and satisfactory. Provision is made in the pending amendment for investment and utilization of the permanent endowment of the institutions for the purpose of securing funds with which to erect permanent buildings. By the carrying out of these provisions the immediate development of the University and its branches and the Agri-

cultural and Mechanical College and its branches would be made possible, it is asserted. It would enable these two institutions to care for the large number of young men and women at the University of Texas who now seek superior facilities for education in other states.

Adv. 18

## OIL IS A MATTER OF ECONOMY

We use grease and oil to reduce friction. Heavy greases are usually used for heavy pressures and thin oil for high speed. It is also necessary to take temperature into consideration when buying lubricants.

All bearings should be kept free from all dirt and grit. It is highly essential that all bearings be kept clean and well greased or oiled. This means less power to operate the machine and longer life for it.

**The Quinine That Does Not Affect The Head**

## IMPATIENTLY AWAIT GREAT NEW CIRCUS

Ringling Brothers and Barnum & Bailey Combined Shows Arouse Keen Interest Here.

"Circus Day," the big holiday for which young and old impatiently wait at this particular season promises to eclipse all other events of the calendar year at Temple, October 2.

It would seem as though everybody in this locality were planning to attend. The very name of the great new circus—Ringling Brothers and Barnum & Bailey Combined—has been sufficient to arouse far more interest than has ever before been shown in the coming of any amusement enterprise. And word from the Ringling Brothers, who are the directors of this gigantic super-circus, is to the effect that those who attend the performances will witness the greatest program ever presented in America. This is likewise true of the mammoth street parade, which will positively take place showday morning, the mammoth menagerie and all else connected with this biggest of all amusement institutions. The famous showmen have made a complete survey of both the great circuses and merged the finest and best of each one. Hundreds upon hundreds of performers will appear in the gigantic main-tent. There will be scores upon scores of the cleverest dumb actors. A gorgeously costumed pageant, of stupendous size, will open the program. Great companies of characters, representing the best-loved stories of fable and nursery lore, will appear. There will be splendid and many groups of beautiful horses in jeweled trappings. The army of clowns exceed all past records for fun and numbers. All contribute to the biggest circus in history.

The first \$100 comes hardest. The first Thrift Stamp is the best investment.

Your war savings stamps will prove good medicine if illness comes.

## Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

### TO THE PEOPLE OF MILAM COUNTY:

Corpus Christi and nearby coast towns have been swept by a terrific storm and tidal wave and hundreds have been drowned and thousands are homeless and destitute and the property loss is many millions.

Out of our safety and plenty can't we extend a helping hand? The various communities are urged to canvass their people for donations to this relief fund. This can be sent direct to Governor Hobby at Austin, Texas or can be sent to the undersigned at Cameron, where it will be promptly acknowledged and forwarded. Don't put this off. **Somebody**, and that means you, start it right now.

E. A. FLINN,  
Chairman Milam County Chapter,  
American Red Cross.

### RENTS AND DIVORCES

(From the Ohio State Journal)  
In a burst of wisdom a Cleveland jurist has stated the cause of divorce to be high rents. Like many others who have received impressions, the jurist has given a contributing cause as the controlling factor in the trouble. There are many cases for divorce, as the jurist will learn for years to come. He is still a young man with only the opportunities for observation that come to a young man. High rents may give way to lower and high cost of living might disappear, but divorces would continue to appear in court. Marriage is the most serious undertaking in life, yet men and women assume its burdens with less thought and less preparation than are usually given to matters involving only a few dollars. Marriage is the real partnership of life, each must be ready to be a partner, to bear and forbear, to think and plan for self and others. The ideal marriage will not go to ruin because of high rents.

### DEATH OF YOUNG LADY

Miss Myrl Maddox, a niece of Mrs. J. E. Brunt, an dan employe of the local telephone exchange, died at the home of her aunt, in this city Tuesday morning at 11 o'clock.

She had suffered a slight indisposition Monday but her condition did not seem serious until Tuesday morning. Medical aid was summoned but nothing could be done to alleviate the trouble which was due principally to a weak heart.

Miss Maddox has lived in Cameron about a year and has made friends here who are grieved over her untimely passing. She is survived by a mother, two sisters and a brother, who live at Walker's creek. She was buried at Ben Arnold Wednesday. We extend our sincere sympathy to the bereaved family.

### SCHOOL GIRL MAKES MONEY WITH PIGS

A year ago Lola Thomason, a school girl of Victoria, La., joined the pig club and borrowed \$12.50 from a bank with which to purchase a gilt, reports J. G. Marston, assistant agent in Natchitoches Parish. Since that time the sow has had two litters of pigs—a total of 16. Thirteen of these were sold for \$135. The club member still has the sow and the remaining three pigs, one of which she recently refused \$45 for.

Lola's success has induced her sister Ida to become a pig-club member. She now has a sow with a litter of pigs and is well on the way to make nice profits from her club work.

### IMPORTS COTTON PICKERS

August Guresky returned Monday night from Flatonia where he had been to get cotton pickers for citizens in the Marak community. August brought back more than thirty, this being his second trip. Cotton in this community is practically all open and some of the land has nearly a bale to the acre, reports Mr. Guresky. He further reports that crops in the country where he has been are "blow-up," there is no cotton at all.

N. E. Stockton of Rosebud was in Cameron Sunday visiting friends.

Our job department is complete. We know what hurry means.
